

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

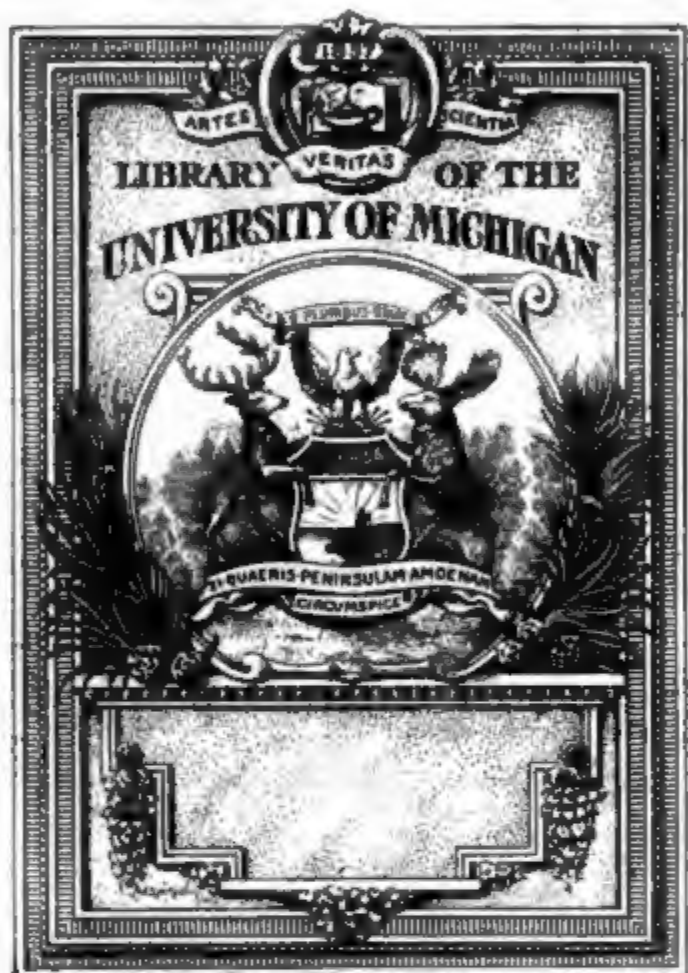

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. JANUARY 13, 1891.

**ROOMS OF THE MERCANTILE LIBRARY ASSOCIATION, }
ST. LOUIS, January 13, 1891. }**

The forty-fifth annual meeting of the St. Louis Mercantile Library Association was called to order in the Reading-room at eight o'clock p. m., by the President, Mr. James A. Waterworth, upon whose motion Judge Charles Speck was called to the chair, and Messrs. Alfred L. Shapleigh and Robert Metcalf were appointed secretaries.

The minutes of the last meeting were read and approved.

Mr. Henry C. Scott, Treasurer, submitted his report of receipts and disbursements during the year ending December 31, 1890.

On motion, the report was received and adopted.

The Committee of Ways and Means submitted the following report, which, on motion, was received and adopted: —

The Committee of Ways and Means respectfully report that they have examined the books and accounts of the

Association and find the same correct and that there are satisfactory vouchers for all expenditures during the year 1890.

B. B. GRAHAM,
W. L. SCOTT,
Committee.

Mr. James A. Waterworth, President, submitted the report of the Board of Direction for the past year, which, on motion, was unanimously adopted.

Mr. Alfred Carr offered the following resolution, which was unanimously adopted: —

Resolved, That the thanks of the Association be, and they are hereby, tendered to the President, Mr. James A. Waterworth, and his associates in the Board of Direction, for the efficient zeal with which the affairs of the Library have been conducted during the past year.

On motion of Mr. Theodore Sessinghaus, Jr., it was ordered that the proceedings of this meeting be furnished the city papers for publication, and that one thousand copies of the same be printed in pamphlet form for distribution.

On motion, the meeting adjourned.

HENRY C. SCOTT,

Treasurer.

FORTY-FIFTH ANNUAL REPORT
OF THE
St. Louis Mercantile Library Association.

LADIES AND GENTLEMEN:

Your Board of Direction have the honor to submit the following report of their proceedings during the past year and of the present state of the Association, as required by the Constitution.

The income of the Association during the year ending December 31st, 1890, has been somewhat larger than estimated in the last annual report, as appears from the following: —

	<i>Estimates of last year.</i>	<i>Actual Income.</i>
From membership	\$ 9,000	\$ 9,238
From fines and miscellaneous.....	1,840	2,303
From rent.....	40,000	40,000
From donation for special purchase of books...	250
	<hr/>	<hr/>
Total.....	\$50,840	\$51,791

That your income has not been greater is due to the stringent condition of the money market, a considerable falling off in November and December subscriptions being attributable to that cause. With the improved financial prospects for the coming year we expect to recover these

lapsed subscriptions and to materially increase the membership. We feel justified in believing that the revenue of 1890 is minimum, and that a constant and satisfactory increase may be looked for.

During the year we have paid off, according to contract, one \$10,000 second mortgage bond, leaving your total bonded indebtedness at this date \$280,000; viz.: first mortgage, \$250,000; second mortgage, \$30,000. We have also paid the interest maturing in 1890 amounting to \$14,500.

Some extraordinary expenditures during the year required the use of borrowed money. During the pressure incident to the completion and occupation of so great a property as this, some work in furnishing and fitting was necessarily postponed to a more propitious season. During the past year necessary additions have been made to the permanent fittings of the building at a cost of nearly \$700. The paintings and statuary belonging to the Association have been collected from the various places which had given them shelter, and have been thoroughly cleaned, repaired and set in place, adding much to the dignity and elegance of the library and reading room: all old book accounts overlooked or postponed during the confusion of moving the library have been paid off: a complete new outfit of magazine racks and portfolios has been provided for the reading room, and a new card catalogue has been completed: a reference room has been fitted up and supplied with every requisite for pursuing the study and investigation of the principal branches of knowledge under the most favorable circumstances: in fact all arrears have been wiped out and all necessary additions for the comfort of the members have been made. An unexpected burning out of your dynamos from grounding and other causes necessitated a thorough overhauling of the electrical fittings of the entire premises and involved a large outlay of money. To meet

these extraordinary expenses we have been compelled to borrow money on the notes of the Association.

You have obligations maturing in the bank amounting to \$7,500, and you have cash on hand amounting to \$3,100, making a floating debt of about \$4,500.

The total expenditures during the year, as shown by the Treasurer's report, have been as follows: —

Payment of one bond.....	\$10,000 00
Interest matured in 1890.....	14,500 00
Library expense.....	11,941 58
Building, steam and electric plant expense.....	13,371 71
Books, papers and periodicals.....	6,108 35
Total.....	\$55,921 64

By agreement with the Connecticut Mutual Life Insurance Company we are bound to keep the building insured for \$160,000; the books and other movable property are insured for \$113,700; the rents of the building are insured for the full amount of \$40,000, so as to guarantee an income in case the building should be rendered untenable by fire; and against accident or damage from boilers, engines or elevator, \$25,000. Knowing how important it is that no interruption should threaten the income of the Association, and that no loss or damage should be sustained, your Board of Direction have felt it to be their duty to secure you in all these respects by solvent insurance. All this insurance, except that on rents, expires in 1891.

MEMBERSHIP.

We have added during the year: —

Perpetual members.....	14
Life members.....	5
Proprietors.....	10
Clerks.....	131
Beneficiaries.....	217
Total.....	377

We have lost by death, resignation, and removal from the city: —

Honorary members.....	1
Perpetual members.....	1
Life members.....	6
Proprietors.....	16
Clerks.....	85
Beneficiaries.....	178
Total.....	<hr/> 287

Leaving our membership December 31st, 1890, as follows: —

Honorary members.....	17
Perpetual members.....	1,176
Life members.....	606
Proprietors.....	805
Clerks.....	963
Beneficiaries.....	742
Total.....	<hr/> 3,809

Showing a net gain, during the year, of 90 members.

It will be noticed with satisfaction that the gain in membership, while probably smaller than we might have hoped for, has been in that class of membership for whose benefit this library was primarily intended.

Mr. John C. Tevis, the Honorary Member whose loss by death is recorded above, was one of the two merchants who originated the movement which created the library; was a member of the first Board of Direction; and a member of the Association from its organization to his death. Mr. Yeatman, in his address, delivered on the 25th anniversary of the Association, says of Mr. Tevis: “The paternity (of the library) as ascribed lies between two of our old and accomplished merchants — Peter Powell and John C. Tevis. My own recollections are that the more especial honor of being the originators of the library belongs to John C. Tevis and Robert K. Woods. These recollections have

been fully confirmed by a letter from Mr. Tevis, in which he says, ‘The subject of forming a Mercantile Library was first broached between Mr. Robert K. Woods and myself. We called on some few active and enterprising citizens who agreed to meet with us and discuss the matter, which they did one night at the counting house of Tevis, Scott & Tevis.’ ” At that meeting, on the night of December 30th, 1845, the St. Louis Mercantile Library was born. It is due to Mr. Tevis’s memory that special and grateful acknowledgment should here be made of his large share in founding the St. Louis Mercantile Library. Only one of the founders and organizers of the library now remains among us, our venerable and respected friend and benefactor, James E. Yeatman. To the first President of the Library, the latest, in the name of the Association, wishes health, happiness, and length of days.

The life members removed from among us during the past year were : —

Francis W. Crane, Jr.,	Theodore Hunt,
Miss Jane Maffitt,	John P. Helfenstein,
Frank A. Renick,	S. H. Laflin,

In this department we congratulate the Association on the progress observable in every particular. We added 767 volumes more to the library in 1890 than were added in 1889, and the accessions have been mainly in the departments of art, science and useful literature. A marked increase has taken place in the issue of books: 186,139 volumes having been taken out in 1890 as against 149,194 in 1889; an increase of 36,945 volumes. Here also the demand for useful and instructive literature shows the same striking and satisfactory increase. The value of the reference room to members, and the enthusiastic appreciation of the facilities it offers to students, may be estimated from the fact that 83,188 volumes, or 44 1-2 per cent. of the total issue, were for use in the Library. To the earnest student the facilities afforded by this well equipped reference room are worth many subscriptions. Of the books of special note added

during the year by purchase the following are important accessions: —

The Bankside Shakespeare, 11 vols., published by the New York Shakespeare Society.

The Henry Irving Shakespeare, 8 vols.

Grimm's Deutsches Wörterbuch, 9 vols.

Meyer's Conversations-Lexikon, New Ed., 16 vols.

Century Dictionary, 4 vols.

And a number of Bibliographical Works, among them: —

Brunet, Manuel du Libraire.

Heinsius, Bücher-Lexicon.

Lorenz, Catalogue, 1840–1885, complete.

Centralblatt für Bibliothekswesen, in 10 vols.

The Library Journal, vols. 1–15 completed.

DONATIONS.

Let us remember our benefactors. Among the donations received by the Association during the past year are some worthy of special mention. Chief among them is the marble statue, The West Wind, which graces the east end of the reading room, the gift of Mrs. A. Blaksley Barnes, formerly of St. Louis, now of New York. This exquisite piece of sculpture, the work of the American artist, Thos. B. Gould, received the marked approval of connoisseurs when first given to the view of Roman critics. The art-loving public on both sides of the Atlantic have since yielded their wider approval and paid their just tribute of admiration. It is a gift worthy of a princess, a graceful remembrance by the donor of her native city, a noble and most valuable addition to the treasures of the Mercantile Library.

To the thoughtful appreciation of a few friends of the Library, and to the genius of our local artist, Mr. Robert P.

Bringinghurst, the Association is indebted for the noble and dignified bronze bust of our late Librarian John N. Dyer, which confronts us in the vestibule with its startling realism, a successful portrait and a true work of art. The promoters of this beautiful tribute and donation were Mr. John A. Dillon, Judge J. C. Normile and Mr. Frank L. Ridgely. To Mr. Robert S. Brookings for a donation of \$250, by the aid of which we have been enabled to place over one hundred volumes — grammars and dictionaries of all the European and oriental languages of note — on our shelves and to bring up the department of Language to an effective standard. To our respected townsman the Rabbi Solomon H. Sonneschein for Kayser's valuable *Bücherlexicon*, 1750-1858, in eight volumes; and to the Dowager Lady Vernon of Stockport, England, by the kindness of her son, The Honorable William Vernon, of St. Louis, for a copy of the magnificent Vernon Dante in four imperial volumes. To each of them and to all other friends who have remembered us by donation, thanks.

Your Board of Direction are fully satisfied that the library is on a substantial financial basis and will in a few years control a liberal book fund, a judicious use of which will put the Mercantile Library at the front of educational establishments of this character in the country. But while this is undoubtedly true, it is also true that for several years to come a careful and even frugal management of your resources must be the chief characteristic of any successful administration of the Association's affairs. Until the second mortgage bonds are entirely paid off — that is for the next three years — the Association will have very limited means at its command for extension in any direction. Economy must necessarily be the key-note of your administration. Yet the temptation to expend is very great. Knowledge was never so eagerly sought. The Library has never been so industriously and searchingly used as during

the past year. The last results of discovery are eagerly waited for by hundreds of students. The problem presented to your Board of Direction is therefore a very difficult one. The situation not only calls for careful husbanding of resources, but for liberal and intelligent expenditure of funds. In this difficult situation it is absolutely essential that the technical knowledge of the educated Librarian shall co-operate with skillful financiering to produce results that will satisfy the patrons of the Mercantile Library and enable it to maintain its ground. We have therefore felt bound, setting all other considerations aside, to call to our aid the best talent available among the professional librarians of the country. We have been fortunate in securing the services of Mr. Horace Kephart, of Yale University Library, who entered upon his duties as Librarian in September last. Mr. Kephart is a trained librarian, has had many years' experience in Yale, Cornell and other libraries, and has come to us with the highest indorsements. We confidently look for valuable results from his labors in a better classification and presentment of the treasures of the library and in a judicious selection of additions to the works already on the shelves. For Mr. Kephart and his work we bespeak cordial recognition and support by the Association and the public.

In the present condition of its affairs the Mercantile Library has special claims on the liberality of the public. With an ample and increasing income in sight a few years ahead, we are nevertheless "cabin'd, cribb'd, confin'd," while the second mortgage bonds are being paid off. For three years to come — 1891, 1892 and 1893 — we need at least \$5,000 a year over and above our ordinary income to enable us to do justice to our members and to satisfy the growing thirst for knowledge which we ourselves have created. This additional income could best be secured, and the absolute security of the Association's affairs could best be

provided for, by raising the money to pay off the bonds of the Association down to \$200,000. There is no reason why this should not be done. At no other period in its history could money have been given to the Library with so great certainty of its intelligent and effective use. At no future time can the same amount of assistance be so effectively rendered with the same amount of money. Donations need not be confined to the rich nor even to the class known as well-to-do. A donation of \$100 or \$200 would, in many cases, complete a now defective class or sub-class and double its value. We have had the pleasure of acknowledging one donation of \$250 which has been applied in this way and which, by its judicious expenditure, has brought up a sub-class to a high degree of completeness and has correspondingly increased the value of the whole class to which it is related. Such benefactions are within the power of persons of moderate means and are invited with the assurance that they will be intelligently applied. Science is daily adding discovery to discovery, and the arts are bringing them into the service of man; men wait to catch the first hints of discovery and are prompt to utilize them; and the people look to the Library to bring the men and the facts quickly together. That is the mission of the Mercantile Library; we ask the good people of St. Louis to help us to accomplish it.

JAMES A. WATERWORTH,
President.

FORTY-SIXTH ANNUAL MEETING

OF THE

ST. LOUIS MERCANTILE LIBRARY ASSOCIATION.

JANUARY 12TH, 1892.

**ROOMS OF THE MERCANTILE LIBRARY ASSOCIATION, }
St. Louis, January 12th, 1892. }**

The forty-sixth annual meeting of the St. Louis Mercantile Library Association was called to order in the Reading Room at eight o'clock, p. m., by the President, Mr. James A. Waterworth, who called Mr. Robert S. Brookings to the chair. Messrs. H. M. Dunphee and Robert Metcalf were appointed Secretaries.

The minutes of the last meeting were read and approved.

The Committee of Ways and Means submitted the following report which, on motion, was received and adopted:—

The Committee of Ways and Means respectfully reports that it has examined the books and accounts of the Association and finds the same correct, and that there are satisfactory vouchers for all expenditures during the year 1891.

B. B. GRAHAM,
Chairman.

Mr. James A. Waterworth, President, submitted the report of the Board of Directors for the past year which, on motion, was unanimously adopted.

Mr. B. S. Adams read the report of Mr. Henry C. Scott, Treasurer, showing the receipts and disbursements during the year ending December 31st, 1891.

On motion, the report was received and adopted.

Mr. Horace Kephart, Librarian, submitted his report on the condition of the Library and its growth for the past year. On motion, it was received and adopted.

Mr. Smith offered the following resolution, which was unanimously adopted:—

Resolved, That the thanks of the Association are hereby tendered to the President, Mr. James A. Waterworth, and his associates in the Board of Direction, for the earnest manner in which they have conducted the affairs of the Library during the past year.

On motion of Mr. Henry Stanley, it was ordered that the proceedings of this meeting be furnished the city papers for publication, and that one thousand copies of the same be printed in pamphlet form for distribution.

On motion, the meeting adjourned.

ROBT. S. BROOKINGS,
Chairman.

H. M. DUNPHEE,
ROBT. METCALF,
Secretaries.

PRESIDENT'S REPORT.

ST. LOUIS, January 12th, 1892.

To the Members of the St. Louis Mercantile Library Association :

Your Board of Direction has the honor to present its annual report of the affairs of the Association.

The income of the Association during the year 1891, amounted to \$51,429.80, derived from the following sources :

From Membership.....	\$8,630 00
“ Fines and Miscellaneous.....	2,242 60
“ Cash Donations.....	557 20
“ Rent.....	40,000 00
	<hr/>
	\$51,429 80

The expenditures for the year were as follows:

For payment of one Bond.....	\$10,000 00
“ Interest on Mortgage, Debt and Discounts.....	14,762 49
“ Building and Electric Plant.....	11,585 85
“ Library Expense, Books and Periodicals.....	18,872 50
	<hr/>
	\$55,220 84

The bonded debt of the Association now stands as follows:—

First Mortgage.....	\$250,000 00
Second Mortgage.....	20,000 00
	<hr/>
Total Bonded Debt.....	\$270,000 00

There is a floating debt to be provided for of eight

thousand, one hundred and eighty-two dollars and thirty-nine cents.

As indicated in the last report of the Board, the Association requires an additional income of nearly five thousand dollars while the second mortgage is being paid off. But this mortgage is now in such manageable shape that with some effort it might be cleared off and thus permit us to enter at once on the enjoyment of the fruits of all the plans and labors which have created for the Association a magnificent endowment, which have doubled its income, and enhanced the value of its property by not less than a quarter of a million dollars. Such a result is worth an extraordinary effort, and your hearty sympathy and co-operation is invoked to crown it with success.

The membership shows an increase during the past year, although the general use of perpetual memberships by beneficiaries has somewhat limited the increase of ordinary memberships.

Of the life members the following have died during the year :

George Bain,
Washington Chamberlain,
Logan D. Dameron,
Chas. McLaran;

while in the death of Mr. William A. Hargadine the Association has lost one of the liberal contributors to its perpetual memberships.

An immense improvement has been effected in the internal economy of the Library. More books have been obtained for less money ; the circulation of books has very largely increased ; the attendance at the Library shows satisfactory increase ; while the capacities and facilities of the Library for study and self-education are becoming better understood and appreciated. The past year has

witnessed a reformation in the arrangement, classification and cataloguing of the books. A new catalogue is well advanced, on the best modern plan, which, when completed, will enable the least learned to discover at a glance what treasures lie hidden on the shelves of the book room. The large departments of English Fiction and Biography are already catalogued and inside of a month from this date the new catalogue will be in the hands of members. No more valuable work has been accomplished in the internal economy of the Library since its foundation, and this re-classification and cataloguing will make an era in the Library's career of usefulness. For all which we are indebted to the ability, technical knowledge and industry of our librarian, Mr. Kephart.

By the intelligent liberality of a few friends of the Library, of whom Miss Thekla Bernays, Mr. Robert S. Brookings, Mr. Howard A. Blossom, and Mr. W. A. Gregory deserve particular mention, various departments of literature and science have been greatly strengthened, and in some instances brought to a creditable condition of completeness. To all these friends our thanks are gratefully accorded.

For the details of what must be considered a year of progress in the best sense of the term, the Association is referred to the accompanying reports of the Treasurer and Librarian.

Reminding the members of the Association what a great educator and ameliator of life's cares and labors has been committed to their charge, and bespeaking their earnest and hearty co-operation with their Board of Direction in its efforts to develop the capacities and resources of the Library, this report is respectfully submitted.

JAMES A. WATERWORTH,

President.

LIBRARIAN'S REPORT.

The statistics for Library use are considerably short of the actual number, since every one has free access to books in the reference-room, and any count of such use is out of the question.

DAILY ATTENDANCE.

A mechanical indicator placed in the elevator at the beginning of the year has enabled us to keep an accurate record of the daily attendance of members and visitors. The result is given in the following table:—

	<i>Total.</i>	<i>Average.</i>
January.....	15,685	603

DONATIONS AND EXCHANGES.

The past year has been especially fruitful in gifts to the Library. We have received cash donations of \$457.20 from Mr. Robert S. Brookings for the purchase of books on Language and German Literature, and \$100.00 from Mr.

W. H. L.

Howard A. Blossom, for works relating to Metallurgy. To Miss Thekla Bernays the Library is indebted for a considerable number of miscellaneous works, and to Mr. W. A. Gregory, of Paris, for 142 volumes of recent French literature.

An arrangement has been made with the Department of the Interior, at Washington, whereby our useless duplicates of government documents were returned to the department and exchanged for volumes lacking in our sets. We have already received from this source 307 volumes, and more will follow.

SELECTION OF BOOKS.

A careful examination of the books on the shelves in September, 1890, showed that certain sections of the Library were relatively strong while others were weak. To remedy this unevenness of growth an effort was at once made towards building up the Library systematically. As the funds for purchasing books were very small it was necessary to take one section of the Library at a time and bring it up to a satisfactory standard. This policy has been continued ever since with gratifying results. With the money that was left over after buying the principal current publications, together with cash gifts from friends who appreciated the movement, we have been able within little more than a year to recruit what were among the weakest departments of the library, namely, Language, Bibliography, German Literature, Chemistry, Mining and Metallurgy. Particular attention was given to the Reference Room, which has been enlarged to accommodate the new books, and is now in a high state of working efficiency. As the departments of Biography and English Fiction were being catalogued and classified anew the opportunity was taken to replace the old and tattered copies on these shelves by new ones, to a considerable extent.

The natural fruit of this policy has been to raise the standard of selection. It is not the purpose to favor certain departments at the expense of others, but to strengthen the weak places so that within a few years our Library may offer the material for all but the most advanced research in all branches of learning alike.

NEW CATALOGUE AND CLASSIFICATION.

At the beginning of the year plans were perfected for a re-classification and re-cataloguing of the entire Library. The old catalogue was in a most unsatisfactory state. It consisted, in the first place, of the printed catalogue of 1874, which, although useful in its day, was hastily compiled and does not meet modern requirements. To this was added a printed supplement in 1876. Finally, the accessions to the library since 1876 were entered in a card-catalogue abounding in serious errors and arranged according to an unmanageable classification. Thus, in order to make sure whether the library had or had not a given book three different catalogues had to be consulted.

The arrangement of books on the shelves, in other words their classification, was also such as made the finding and delivery of books needlessly uncertain and tedious. The books themselves had no individual numbers and were consequently often misplaced. As the promptitude and efficiency of the service to the public depends directly, in all large libraries, upon the condition of the catalogue and classification, it was determined to do all this work over again with scientific method. The importance of this undertaking and its difficulties, cannot be appreciated by the general public, nor will its fruits be fully apparent until the whole task is done. And while the work is still in progress there must needs be a compromise between the old system and the new, such as will interfere to some extent with the efficiency of the general service. This being the case it is

gratifying to report that the progress made upon the new catalogue has been quite remarkable. Work was not actually begun upon it until the middle of May, but within seven months the sections of Biography and English Fiction have been finished, representing in the aggregate some 18,000 volumes. The catalogues of these sections are now in press and that of English Fiction will be ready for the public about February 1st.

It is the intention to print a short-title catalogue of the Library in sections, so that any one may buy for a few cents the catalogue of such section as he is most interested in. As this plan of printing is comparatively inexpensive, new editions of the "finding lists" as they are called, can be brought out as they are needed. When the work is done there will also be a new official card-catalogue of the entire library which will always be kept complete to date; but the printed lists, together with bulletins of recent accessions, will for the most part obviate the necessity of consulting a cumbersome manuscript catalogue, so far as the public is concerned.

Simultaneously with cataloguing the books they are rearranged on the shelves according to a scheme of classification such as will always keep books on related subjects side-by-side. This classification will be close, so that not only all histories of the United States, for instance, will be in one place separate from other histories, but all histories of a single period, state, or even city, will be in a division by themselves. Accuracy and promptitude in serving the public can be attained in no other way. Each book in the Library will also be given a number or symbol which will at once identify it for charging purposes, indicate its exact alphabetical order among the other books of its class, and yet be permanent so that the numbering need never be done over again. This notation is infinitely elastic, so that any number of new books may be interpolated at any

point at any time without disturbing the numbers of the books already on the shelves. That such a notation is not easy to devise may be imagined from the fact that there are already several thousand distinct classes of books in the library, and that in each class the books must be kept in strict alphabetical order; whereas in such a class as English Fiction there are often many different works by the same author, many different editions of the same work, and frequently many extra copies of the same edition.

AIDS TO READERS.

As the time of the librarian and cataloguer has been largely taken up with the new undertaking mentioned above, it has not been possible for them to prepare special aids and guides for readers, much as such work is needed. But something has been done toward the same end by collecting bibliographies and reference-lists, and by offering personal assistance. In this connection it should be mentioned that a member of the Board of Direction has selected and published for the library a list of some 250 recommended novels which has done excellent service. This list is exposed in the issue-room in placard form and has also been printed as a pamphlet under the title of “Pastime Reading.” Its effect is to encourage a higher standard of reading by suggesting something better than “the latest thing out.”

NUMISMATIC COLLECTION.

Early in the year the collection of coins and medals was re-arranged, catalogued, and appraised. It was found that the number of pieces was as follows:—

	<i>Pieces.</i>
Gold of all kinds (including 1 medal)	89
U. S. Silver	184
“ Copper coins	385
“ Tokens	555
Canadian silver and copper	181
Spanish American	158

	<i>Pieces.</i>

PRESIDENT'S REPORT.

ST. LOUIS, January 10th, 1893.

To the Members of the St. Louis Mercantile Library Association:

The Board of Direction has the honor to submit its annual report of the affairs of the Association.

The income during the year 1892, was \$51,892.01, from the following sources :

From Memberships.....	\$9,312 00
“ Fines and Miscellaneous Sources.....	2,580 01
“ Rent.....	40,000 00
Total.....	<u>\$51,892 01</u>

The expenditures were \$57,467.15, as follows:

For Payment one Second Mortgage Bond	\$10,000 00
“ Interest on Mortgage Debt, and Discounts.....	14,403 57
“ Building and Electric Plant.....	13,321 11
“ Library Expense, Books and Periodicals.....	19,742 47
Total.....	<u>\$57,467 15</u>

The bonded debt is now as follows:—

First Mortgage.....	\$250,000 00
Second Mortgage.....	10,000 00
Total.....	<u>\$260,000 00</u>

The floating debt is now \$13,757.35, having been increased during the year \$5,574.96. This increase of debt was caused by the fact that the income has been insufficient to provide the sum necessary to retire one Second

Mortgage bond of \$10,000.00 (which is required annually), in addition to the payment of the usual expenses of the Library. An effort will be made this year to realize from the sale of perpetual memberships a sum sufficient to pay the floating debt, and the remaining bond of this series.

It is hoped by the Board that this important result will be attained, and your active aid is asked in its accomplishment.

The membership is practically the same in number as it was one year ago, there having been an increase of perpetual members, life members, and beneficiaries, but a decrease of proprietors and clerks, resulting in a net loss for the year of fifteen members. The receipts from membership were larger than for 1891.

We have lost by death during the year the contributors to two perpetual memberships,

Judge J. C. Normile,
Dr. Sam'l. H. Frazer ;

and eight life members,

Mrs. Ruth C. Randolph,
Eben Richards,
J. A. Jameson,
Ellis N. Leeds,
John Wickham,
Edw'd. H. Hymers,
Archibald R. Lockwood,
Chas. W. Mense.

The number of books added during the year was more than double the average annual additions of the ten preceding years, the gain being largely due to gifts and exchanges. We have received as a gift from Mr. Robert S. Brookings (too late to mention in the Treasurer's

report) \$350.00, for the purchase of books; and from the United States Government and various State Governments over nine hundred bound volumes of official publications.

The attendance of members has largely increased, and the circulation of books shows a marked gain in all departments excepting English Fiction, which has slightly fallen off, owing to a smaller supply of new novels.

The new catalogue and classification have advanced so far that, measured in the time necessary for the work, one half of the cataloguing is now done. The catalogue of English Prose Fiction was printed early in the year. The sections of Biography, History and Travels are now nearly ready for the press.

The accompanying reports of the Librarian and Treasurer will supply full information, in detail, of the affairs of the Association.

Very respectfully,

BENJ. B. GRAHAM,

President.

LIBRARIAN'S REPORT.

Making	83,348
Deduct books lost and paid for.....	54
“ “ worn out and condemned.....	223 277
Leaving, December 31st, 1892.....	83,071

The above total stands for bound volumes only, regardless of the number of works or parts bound within the same covers. It shows the aggregate number of volumes entered upon our accession-books from the first opening of the library to date, less the books annually reported lost and paid for, or worn out and condemned. Annual or biennial inventories of the books were taken regularly from 1847 until some time in the seventies, when the overcrowded condition of the shelves prevented. Accordingly, there is no allowance made in our total of 83,071 volumes for books lost (by theft or otherwise) and not paid for, since the last inventory was made. The statistics of other libraries show that such loss is usually very slight, but we cannot tell what it has amounted to in our case until the completion of the new classification makes annual inventories again possible.

On the other hand we have on our shelves a considerable number of works not included in the above summary, such as unbound periodicals and pamphlets, duplicates held for sale or exchange (about 2,000 volumes), and books de-

posited with us for the use of the members, but not our property (U. S. Patent Specifications, 321 volumes, deposited by the U. S. District Court; Hitchcock Collection on Alchemy, 267 volumes). We have entered during the past year 249 volumes which had been in the library for a long time but had not hitherto been accessioned. Some similar works still remain to be entered.

Besides the 5,048 bound volumes added during the year we have received by gift 623 pamphlets, 28 broadsides, 22 maps, 175 charts, and 8 unbound atlases.

The accessions for the year are classified as follows: —

	VOLS.

BINDING.

The binding done during the year was as follows: —

	<i>Volumes.</i>	<i>Average cost per vol.</i>
New books bound.....	407	\$0 46
Gifts bound.....	340	52
Periodicals bound.....	478	70
Newspapers bound... ..	32	2 00

This statement represents the bills received, January to December, inclusive, and consequently antedates the Treasurer's accounts by one month.

Duodecimos and smaller books are mostly bound in half leather with tight backs. Other books are bound either in half morocco or canvas. We have melancholy evidence on our shelves that leather bindings should be used as sparingly as possible in our library. We have several thousand volumes which were once in substantial bindings but have simply dropped to pieces, not from excessive handling but from chemical change. To some extent this is probably due to the fact that gas was used in the old library building, and that many books were shelved near the ceiling in a stratum of hot air. It is also true that genuine morocco is unobtainable in St. Louis, the leather going by that name being an imitation, the so-called "American morocco," which is not made from goat-skins. Neither of these facts, however, nor both combined, will account for the excessive deterioration which is still going on in our leather bindings. In our new building we use electric lights exclusively, and the books are shelved within arm's-reach. Moreover, the decay is only a little less rapid in genuine morocco leather than in the imitation. One has only to examine the rows of British Patent Specifications to see that some agency is at work more destructive than any

yet mentioned. Some of these Specifications, bound in the best of English morocco, which were placed in the library as late as 1888, are already hard and dry to the touch as though the oil had been roasted out of them in an oven.

There can be no question but that the smoke nuisance is responsible for this deterioration. It is not the carbon of the soot, but some other chemical agency accompanying it, that does the mischief. Every kind of leather is affected, calf no more than morocco, if indeed, as much, owing to its close-grained structure. Cloth is not injured, nor is canvas. The latter material we are now using almost exclusively for periodicals, and very largely for other classes of books, octavos and upwards. It will outwear any leather, is cheaper, and is quite neat when finished with a red leather label. The only objection to it is that it soils easily, on account of its coarse texture. Only hempen or linen canvas is used, as cotton duck soon wears fuzzy.

CIRCULATION.

The Library was open 307 days in the year, and there were issued 219,346 volumes, being an average daily issue of 714.5 volumes, classified as follows: —

	<i>Home Use.</i>	<i>Library Use.</i>	<i>Total Volumes.</i>
History, biography and travels...	13,530	38,393	51,923
Science, and general literature...	13,483	43,579	57,062
Poetry, drama, and art.....	3,167	16,885	20,052
Prose fiction and juveniles.....	79,480	10,829	90,309
Total.....	109,660	109,686	219,346

PERCENTAGE OF EACH CLASS.

History, biography and travels.....	12.3	35.0	23.6
Science, and general literature.....	12.3	39.7	26.0
Poetry, drama and art.....	2.9	15.4	9.2
Prose fiction and juveniles.....	72.5	9.9	41.2

As compared with 1891, the circulation shows a gain of

3,962 volumes. The circulation of Fiction has fallen off two per cent., and that of History, Biography and Travels has gained two per cent., by comparison with the percentages of the previous year. The increase is mostly in books issued for home use.

There has been a gain of 20,877 in attendance over that of 1891.

The statistics for the circulation of Fiction include juvenile fiction and fiction in foreign languages. "Library use" includes all books issued on call for use in the Library building. It does not include the use of new books which are freely displayed in the issue-room and may be carried into the reading-room by any one. Books issued to students by the librarian himself while assisting them in their studies are not included, nor is any record kept of the use of the two or three thousand books in the reference-room, which were selected as the most called for, and to which every member can help himself. There are no statistics of the use of current periodicals in the reading-room, which is uncommonly great, as the weekly files of fifty-six daily

papers and all the unbound numbers of the current volumes of 351 other periodicals are accessible to readers in open racks or cases without any formality.

By comparing the statistics of issue of our Library with those of other libraries of the same grade it will be noticed at once that the number of works consulted in the Library building is extraordinarily large. As special pains have been taken this year to insure accuracy, I can confidently state that the number reported is below the actual number of books issued. On Saturdays and other busy days when the attendance rises above a thousand, and the members come in waves rather than in steady streams, the attendants at the issue desk (never more than four) are taxed to the utmost, and at such times it is not surprising if they fail to note every volume that is handed out for reading-room use on merely verbal application.

The explanation for this large reference use lies, first, in the fact that our building is situated in the heart of the shopping district and within a few minutes' walk, at most, of all the large office buildings; and, secondly, in the more important fact that our city has no special reference libraries, no university library of any size, and, with a single exception, no important professional libraries. The condition of St. Louis in this respect is anomalous, and it speaks volumes as to the character of the work done in the Mercantile Library.

GIFTS AND EXCHANGES.

The library is indebted to Mr. Robert S. Brookings for a cash donation of \$350.00, which was expended for popular new books and duplicates of standard novels. The publication of Mr. Guy's *Pastime Reading* last year had the effect of directing the attention of readers to the classical works in English fiction, and the demand for such works increased so that many of our old copies were worn

out. New copies were urgently needed to replace them, and Mr. Brookings, with characteristic generosity, supplied the means as soon as his attention was called to the matter. As the books were received in December, the gift does not figure in the Treasurer's report.

We have received from the Rev. P. G. Robert, D. D., a set of the first American edition of the *Encyclopædia Britannica*, published with the imprint *Philadelphia, 1798*, in 18 volumes, 4°. This is not a reprint, merely, of the third English edition, but contains a large number of articles written or revised by American authors, and has special interest from its early date and fine typography.

The Superintendent of the United States Coast Survey, Prof. Thomas C. Mendenhall, has sent us 175 selected charts issued by the Survey, accompanied by the offer to send others from time to time until our set of the series is complete. These are the charts used by vessels in navigating our coasts, and include, besides the general charts, special ones on a large scale, with soundings, for every important harbor or river-mouth on our Atlantic, Gulf, and Pacific seaboard. An oak cabinet has been built to receive them.

The leading boards of trade and similar organizations throughout the country have favored us with sets, as nearly complete as possible, of their annual reports and other publications, which are of permanent value for their statistics of the trade and commerce of our chief cities.

From the Department of the Interior we continue to receive rare Government publications in return for the duplicates forwarded to Washington last year, the total accessions from that source, to date, being 470 volumes.

Special requests sent to the chiefs of various departments of the Government for such of their publications as were needed to complete our sets have been generously responded to, with the result that our Library now possesses

one of the best collections of Government publications in the West. For invaluable personal as well as official aid in securing such works our thanks are due to Hon. John W. Noble, Secretary of the Interior, and Hon. Seth W. Cobb.

The intrinsic value of these publications has been sadly underrated in the past. Until recently their distribution has been haphazard and intermittent, and so little pains was taken in former years to preserve them that even the United States Government itself has not a complete set of its own publications. To some extent this carelessness was due to ignorance of the contents of most of the volumes, partly excusable from the lack of proper indexes, and to the fact that continuous sets rarely fell into the same hands.

As a matter of fact, it may be stated broadly that scholarly research into the political and social development of our country is impossible without access to the publications of the central Government, and there is scarcely a science or art on which material invaluable to the specialist does not exist somewhere in the same labyrinth. The recent publication of catalogues and indexes to public documents has stimulated the demand for them ; but, unfortunately, the long neglect to preserve the documents has made many of them practically unobtainable.

If the case is bad with respect to the publications of the Federal Government it is still worse with those of the various States and Municipalities. More than one State department is paying good prices to second-hand booksellers for copies of its own reports. My attention has frequently been called to the poverty of our shelves in works of this nature. The geological reports of the different States are asked for by geologists, miners, and engineers; the agricultural reports are wanted by entomologists and chemists ; physicians and others desire the publi-

cations of the State boards of health ; students of political and social problems cannot work to advantage without the State reports on labor statistics and charities ; and these are but a few examples out of many that might be cited of the every-day usefulness of a class of works which, at one time or other, might have been had for the asking.

It was not until December that I was able to begin work in this direction, but a glance at the list of gifts appended to this report will show that satisfactory progress has already been made. Over 500 bound volumes were received from these sources within one month, coming from nearly every State in the Union. To single out names for special mention from so long a list of donors would be invidious, as the requests have met with uniformly courteous responses and generous contributions wherever possible — from none more so than from the officials of our own State. I regret to say, however, that few States have suffered so severely from the former neglect to preserve such material as has Missouri. To the members and friends of the Mercantile Library I would respectfully appeal for aid in completing the sets of our own State documents, to which our fire-proof building offers security for the future.

During the summer months our unused duplicates were brought together and roughly classified. A regular system of exchanges with other libraries has been begun, enabling us to get rid of useless material to advantage.

At the same time about one-half of our books were shifted into new positions, so that, with the erection of two new cases, we will have shelf room for several years' growth.

CATALOGUE AND CLASSIFICATION.

The accessions of new books in 1892 were so far in excess of any previous year (more than double the average annual accessions of the ten preceding years), that more of

the cataloguer's time has been taken up with current work than heretofore. Nevertheless, one of the largest and most important sections of the Library, that of History, Biography and Travels, is well towards completion, and the catalogue of English Fiction was finished and printed in February. In other words, about one-half of the Library is catalogued and classified in accordance with the new system, measuring in time necessary for the work, instead of in number of volumes. The printed Catalogue of English Prose Fiction has been warmly praised by other libraries and by the press, notably in the *Library Journal* (two reviews), and in the *Bollettino* of the National Library of Florence. It has brought us many congratulatory letters, some from foreign librarians, in which the rapidity of its execution, coupled with accuracy, has been especially dwelt upon. The receipts from sale of copies have not gone far towards paying the cost of printing, but this was anticipated, as catalogues never pay for themselves. On the other hand, the returns from exchanges with other institutions have been quite worthy of mention, and the use of the catalogue at the issue-desk has been incessant and invaluable.

Respectfully submitted,

HORACE KEPHART,

Librarian.

APPENDIX A.

LIST OF DONORS FOR THE YEAR 1892.

The following list enumerates only such gifts as did not duplicate volumes or pamphlets already on our shelves. It includes works received in exchange for our own publications, but not those received in exchange for books from our duplicate collection.

Periodicals, including library bulletins, etc., are acknowledged in a separate list.

In the present list, a pamphlet received in paper covers but afterwards bound separately by the Library counts as a volume. Similarly, a collection of pamphlets bound together counts as a single volume.

Parts of a work, received, but awaiting the completion of the volume, are not entered here.

When more than one copy of a work has been received, but one copy is entered in this list, unless it was deemed advisable to put more than one copy in circulation, in which case the number of copies entered in the accessions-book is here credited to the donor.

APPENDIX F.

STATISTICS OF THE ST. LOUIS MERCANTILE LIBRARY.

1876-1892.

For many years it was customary to print in each Annual Report of the Library a "Table of Results," giving statistics of membership, books, circulation, receipts, expenditures and property, from the opening of the Library in 1846 to date. The last of these tables was published in the Report for 1876, in which may be found the statistics of the first thirty years of the Library's growth.

In the following pages, the same tabular statement is continued from 1876 to 1892, but in an expanded form:

FORTY-EIGHTH ANNUAL MEETING
OF THE
ST. LOUIS
MERCANTILE LIBRARY ASSOCIATION,
JANUARY 9TH, 1894.

**ROOMS OF THE MERCANTILE LIBRARY ASSOCIATION, }
ST. LOUIS, January 9th, 1894. }**

The forty-eighth annual meeting of the St. Louis Mercantile Library Association was called to order in the Reading-Room at eight o'clock, p. m., by the President, Mr. B. B. Graham, who called Mr. Alfred Carr to the Chair.

Messrs. Robert Metcalf and George C. Stinde were appointed Secretaries.

The minutes of the last meeting were read and approved.

The Committee on Ways and Means submitted the following report, which, on motion, was received and adopted:—

The Committee on Ways and Means respectfully reports that it has examined the books and accounts of the Association and finds the same correct, and that there are satisfactory vouchers for all expenditures during the year 1893.

WM. E. GUY,
Chairman.

Mr. B. B. Graham, President, submitted the report of the Board of Direction for the past year, which, on motion, was unanimously adopted.

Mr. Wm. E. Guy read the report of Mr. Henry C. Scott, Treasurer, showing the receipts and disbursements during the year ending December 31st, 1893. On motion, the report was received and adopted.

Mr. Horace Kephart, Librarian, submitted his report on the condition of the Library and the progress made during the past year. On motion, the report was received and adopted.

Mr. A. C. Carr offered the following resolution, which was unanimously adopted: —

Resolved, That the Association hereby tender its cordial thanks to the President, Mr. B. B. Graham, and his associates on the Board of Direction, for the skill with which the affairs of the Library have been conducted during the past year, and for the liberality and careful management by which the finances of the Association have been so much improved.

On motion of Mr. Jas. A. Waterworth, it was ordered that the proceedings of this meeting be furnished the city papers for publication, and that two thousand copies of the same be printed in pamphlet form for distribution.

On motion, the meeting adjourned.

ALFRED CARR,
Chairman.

PRESIDENT'S REPORT.

ST. LOUIS, January 9th, 1894.

To the Members of the St. Louis Mercantile Library Association:

The Board of Direction has the honor to submit its annual report of the affairs of the Association.

The income during the year 1893 was \$59,632.46, from the following sources:—

From Memberships.....	\$15,898 00
“ Fines and Miscellaneous Sources.....	2,184 46
“ Cash Donations.....	1,550 00
“ Rent.....	40,000 00
Total.....	<u>\$59,632 46</u>

The expenditures were \$52,198.24, as follows:—

For Part Payment one Second Mortgage Bond.....	\$ 2,500 00
“ Interest on Mortgage Debt, and for Discounts.....	13,839 61
“ Building and Electric Plant.....	15,436 89
“ Library Expense, and for Books and Periodicals.....	20,421 74
Total.....	<u>\$52,198 24</u>

The bonded debt is now as follows:—

First Mortgage.....	\$250,000 00
Second Mortgage.....	7,500 00
Total.....	<u>\$257,500 00</u>

The floating debt is now \$6,323.31, having been decreased during the year \$7,434.22.

We have lost by death during the year thirteen life members,

Henry D. Bacon,
John H. Beach,
George D. Capen,
Samuel A. Coale, Jr.,
Sanford B. Kellogg,
Joseph O'Neil,
Alfred Peterson,
John D. Ranken,
Benjamin C. Sanford,
Conrad R. Stinde,
Grant Tilden,
George F. Tower,
Philip V. Taylor.

In Henry D. Bacon and John H. Beach the Library has lost two of its most zealous presidents and generous benefactors.

The receipts from membership were larger than for 1892, the increase arising from the larger number of perpetual memberships sold.

The financial stringency of the year has had some effect upon our membership. The withdrawals of clerks and beneficiaries have numerically exceeded the gain in perpetual members, and, together with the unusual number of deaths, have resulted in a net loss of twenty-six members. There has also been a corresponding decrease in attendance and circulation, but a reaction has recently set in which promises well for the coming year.

The new catalogue and classification are now so far advanced that the end is in sight, and the completion of these important adjuncts will lead to marked improvement in all branches of the library service.

The accompanying detailed reports of the Librarian and Treasurer will supply full information of the affairs of the Association.

Very respectfully,

BENJ. B. GRAHAM,
President.

LIBRARIAN'S REPORT.

To the Board of Direction of the St. Louis Mercantile Library Association:

GENTLEMEN — I herewith submit my annual report for the year ending December 31st, 1893, with accompanying statistics showing the condition of the Library on that date.

MEMBERSHIP.

We have added during the year 404 new members, as follows : —

Perpetual members.....	91
Life members.....	1

Life members.....	13
Proprietors.....	23
Clerks.....	145
Beneficiaries	248
Total	<u>430</u>

Leaving our membership, December 31st, 1893, as follows : —

Honorary members.....	16
Perpetual members.....	1,288
Life members.....	597
Proprietors	256
Clerks.....	897
Beneficiaries	756
Total	<u>3,810</u>

Showing a net loss for the year of 26 members.

BOOKS ADDED, 1893.

The following additions have been made to our collection of books : —

Besides these bound volumes we have received by gift 461 pamphlets and 5 charts.

The expenditures in this department have been as follows: —

For books.....	\$3,189 53
For periodicals (other than newspapers).....	1,430 10
For newspapers	306 39
For British patents (collating and binding)	402 48
For binding (including pamphlet cases).....	1,092 08
Total.....	<u>\$6,420 58</u>

The Reading-Room has been supplied with 428 newspapers and magazines, of which 135 were presented. The number of extra copies of magazines taken for home-issue as books has been increased.

CIRCULATION.

The Library was open 306 days in the year, and there were issued for home use 99,274 volumes, classified as follows: —

	<i>Volumes.</i>	<i>Per Cent.</i>
History, biography and travels.....	9,196	9.3
Science, and general literature	10,638	10.7
Poetry, drama, and fine arts	2,825	2.9
Prose fiction and juveniles.....	76,620	77.1
Total.....	<u>99,274</u>	<u>100.</u>

The attendance of members and visitors has been 169,992, being an average daily attendance of 556.

I have omitted the statistics of books issued for use in the library building, as I have good reason to believe that they have not been accurately kept, and cannot be, in a library like ours where large numbers of books are given to students without written application. When giving personal assistance to readers we bring them books by the armful or truck-load and it would be a serious waste of time for us to count and classify such service. Promptitude in delivering the books is the essential thing, and as for checks and hobbles on readers and staff, the less of them, the better.

In December Mr. Edward B. Dolan was appointed Assistant Librarian in charge of the issue department. He was formerly on the staff of the Peoria Public Library and comes to us well recommended.

NEW BOOKS.

The only complaint that is made against the library by any considerable number of our members is that they cannot be sure of getting the latest publications as soon as issued. There is often some exaggeration in the form of expressing this grievance, but it is none the less true that when a hundred members want the same book at the same time, and we have only four or five copies, somebody must be disappointed. There is no popular library but experiences this same trouble perpetually.

The book wanted for mere novelty's sake is usually a novel. It is not possible for us to stock-up with enough copies of such works to meet a spasmodic demand, if we depend upon our ordinary revenues for such purchases, nor would it be right for us to do so even if we could. On the other hand, we can supply a sufficient number of copies if those who are impatient for new books will pay their share of the cost. At the close of the year the Board authorized me to try an experiment of this kind, and it has been undertaken. The results will be laid before you at the next annual meeting.

Briefly, the plan is this: The library buys extra copies of the most popular new books, over and above those purchased for ordinary issue as heretofore. These extra copies are known as "duplicates" and are issued only as extras at ten cents a volume for each week. Any number of them may be drawn on the same ticket, and they may be kept out as long as desired at the rate specified, without the formality of a renewal, no fines being charged for over-detention.

These duplicates are not treated as permanent accessions to the library. They form an independent branch, organized on the basis of self-support. The number of copies purchased depends entirely upon the demand, and when this slackens the copies left over are sold. Separate accounts are kept of this branch, and the receipts from issue and sale of copies will be spent for new duplicates.

This scheme has been tried in other libraries, but only on a small scale, so far as I know. We propose to carry it out on any scale that the members will support, and eventually to furnish duplicates of other new books than novels if practicable.

It is hoped that such a branch will solve the new-book problem, in so far as it is soluble at all. I wish to emphasize the fact that regular copies of the same books will be added as heretofore and issued without charge, and that the chance of getting a regular copy will be better than ever, since much of the demand will be met by the duplicates. At the same time the cost of furnishing extra privileges will be borne entirely by those who enjoy them.

CATALOGUING DEPARTMENT.

The most satisfactory progress has been made on the new catalogue and classification. No one who has not tried it can appreciate how great a task it is to catalogue a library of 85,000 volumes, even under the most favorable circumstances, if the work is well done. In our case there were uncommon difficulties in the way. Our books were in confusion. We had not only to catalogue them but to re-arrange the whole collection in systematic order by subjects, give each book a number, showing its place in that order, label the books, and go through other necessary routine. As the shelves were crowded, whole sections would have to be shifted several times over before the books

could find their proper place. All this must be done without interfering with the issue of books, and in spite of the fact that the issue clerks were necessarily ignorant of the new classification. The plan of cataloguing, classifying and numbering had to be such as would grow with the library, instead of soon becoming obsolete as most methods do.

But the worst feature of the case was the time limit. In most of the larger libraries it is considered a good average for a professional cataloguer to catalogue about 4,000 volumes a year without any of the extra labor of reclassifying, etc., which was thrown upon us. This rate always strikes the uninitiated as very slow, and if there was one thing surer than another it was this: that our members would not wait patiently for twenty years while a cataloguer was setting the old books to rights.

The dilemma was such that we would not have undertaken the work if it could have been avoided without crippling the library; but no lasting improvement could be made in any branch of the library service until we had a new catalogue and until the books were systematically arranged.

We began on the 20th of May, 1891, by engaging Miss Kate E. Sanborn to prepare the catalogue under my supervision. Yielding to the earnest solicitation of many of our members, we decided to print if practicable; but as it was very doubtful if the returns from copies sold would pay more than a small fraction of the printer's bills, we arranged to print one section at a time and to prepare the copy in such a way that it could be turned into a card catalogue if the experiment of printing failed.

In February, 1892, we published the first section of the catalogue, English Prose Fiction, having selected this section for trial because it was more likely to sell than any other. The receipts from copies sold have paid a little

more than one-sixth the cost of printing; but many copies have been worn out at the issue desk and it is the best labor-saving appliance that we have.

In April, 1893, we secured the services of Miss Malina A. Gilkey to assist in cataloguing. The card catalogue is now finished for the whole library excepting the following sections: Fine Arts (ready in two weeks), a part of History, Poetry and Drama, Polygraphs, English Essays and Literary History, Bibliography, Wit and Humor, Medicine, Industrial Arts, Theology, Philosophy proper, General Periodicals, and a part of the U. S. government documents. I estimate that these sections aggregate not to exceed 20,000 volumes, but these include many long sets of periodicals, transactions, patent specifications, etc., which are very quickly catalogued. In other words, upwards of 60,000 volumes have been catalogued in two years and seven months, during nine months of which time we had two cataloguers at work, or at the rate of over 18,000 volumes a year for each cataloguer.

It may be of interest to other libraries to explain in a few words how this speed in cataloguing has been accomplished. It was not done by scamping. The printed catalogue of English Fiction shows the quality of the work. In reviewing this catalogue *The Library*, official organ of the Library Association of the United Kingdom, said in its issue of January, 1893, that it is "a model catalogue, such as is rarely met with in this country for clearness, exactness, and general excellence — why, we know not."

We studied economies in cataloguing. We tried to incorporate all the essentials of a practical guide to our shelves and to leave out all that was unnecessary. For example, we spent little time in hunting up full names of authors. When the library gets books by two James B. Fitz Smiths, it will be time enough to go through a wilderness of reference books and college catalogues to find out that one of them is James

Brown Fitz Smith and the other is James Black Fitz Smith. We copied only the essentials of title-pages. We did not analyze the contents of mixed works, considering that to be the proper work of bibliography, not of cataloguing. We entered each work under its author and subject or title, with cross-references wherever needed; but we tried to make the catalogue as concise as possible without using abbreviations (which the public despises, and rightly). The result is something more than a finding-list and less than a bibliography or index of contents. It may be elaborated hereafter to any degree that may be thought desirable, and for which future librarians may have leisure, but the essentials of a practical and accurate catalogue are there.

I cannot speak too highly of the self-sacrificing zeal that has been shown by the young ladies throughout. They have persistently worked over-time although requested not to, and have taken such pride in their work as is shown only by those who love their calling for its own sake.

I have done none of the cataloguing myself, but have spent much of my time upon the classification and general planning. It has been impossible for me to be at the issue desk for any considerable time while thus engaged, but the engineering is at last done, and I can now make amends to the members.

Respectfully submitted,

HORACE KEPHART,

Librarian.

APPENDIX A.

LIST OF DONORS FOR THE YEAR 1893.

The following list enumerates only such gifts as did not duplicate volumes or pamphlets already on our shelves. It includes works received in exchange for our own publications, but not those received in exchange for books from our duplicate collection.

Periodicals, including library bulletins, etc., are acknowledged in a separate list.

In the present list, a pamphlet received in paper covers but afterwards bound separately by the Library counts as a volume. Similarly, a collection of pamphlets bound together counts as a single volume.

Parts of a work, received, but awaiting the completion of the volume, are not entered here.

When more than one copy of a work has been received, but one copy is entered in this list, unless it was deemed advisable to put more than one in circulation, in which case the number of copies entered in the accessions-book is here credited to the donor.

APPENDIX F.

STATISTICS OF THE ST. LOUIS MERCANTILE LIBRARY.

1876-1893.

For many years it was customary to print in each Annual Report of the Library a "Table of Results," giving statistics of membership, books, circulation, receipts, expenditures and property, from the opening of the Library in 1846 to date. The last of these tables was published in the Report for 1876, in which may be found the statistics of the first thirty years of the Library's growth.

In the following pages, the same tabular statement is continued from 1876 to 1893, but in an expanded form: —

FORTY-NINTH ANNUAL MEETING
OF THE
ST. LOUIS
MERCANTILE LIBRARY ASSOCIATION,
JANUARY 8TH, 1895.

ROOMS OF THE MERCANTILE LIBRARY ASSOCIATION, }
ST. LOUIS, January 8th, 1895. }

The forty-ninth annual meeting of the St. Louis Mercantile Library Association was called to order in the Reading-Room at 8 : 30 p. m., by the President, Mr. Wm. E. Guy, who called Mr. J. C. Howe to the chair.

Messrs. Robert Metcalf and George C. Stinde were appointed Secretaries.

The minutes of the last meeting were read and approved.

Mr. Wm. E. Guy, President, submitted the report of the Board of Direction for the past year, which, on motion, was unanimously adopted.

The Committee on Ways and Means submitted the following report, which, on motion, was received and adopted:—

The Committee on Ways and Means respectfully reports that it has examined the books and accounts of the Association and finds the same correct, and that there are satisfactory vouchers for all expenditures during the year 1894.

I. W. MORTON,
Chairman.

Mr. Henry C. Scott, Treasurer, read his report, showing the receipts and disbursements during the year ending December 31st, 1894. On motion, the report was received and adopted.

Mr. Horace Kephart, Librarian, submitted his report on the condition of the Library and the progress made during the past year. On motion, the report was received and adopted.

Mr. H. M. Filley offered the following resolution, which was unanimously adopted:—

Resolved, That the report of the Board of Direction for the past year, as read by the President, shows the affairs of the Library to be in a very satisfactory condition, and the thanks of the Association are hereby tendered to the officers and members of the Board for the faithful manner in which they have discharged all their duties.

A motion was made by Mr. Benj. S. Adams, and seconded by Mr. Wm. E. Guy, that the Board of Direction take action in reference to changing the time for holding the annual meetings, with power to act. It was unanimously adopted.

Mr. Wm. E. Guy called attention to certain amendments to the Constitution which had been adopted by the Board of Direction on December 18th, 1894, and approved by the Trustees, as follows:—

AMENDMENT TO THE CONSTITUTION.

Resolved. That Art. 6 and Art. 7 of Chapter I. of the Constitution of the St. Louis Mercantile Library Association be amended so as to read:—

ART. 6. Any person paying fifty dollars at any one time may, if approved by the Board of Direction, become a life member, and shall enjoy the full privileges of membership, except the right to hold office as hereinafter limited by Art. I., Chapter II. of the Constitution.

ART. 7. A perpetual membership is hereby created, the price of which shall be one hundred dollars, negotiable and transferable to such party as may have been approved by the Board of Direction, which member-

ship shall perpetually entitle the owner to all the privileges of regular or beneficiary membership, except the right to hold office as hereinafter limited by Art. I., Chapter II. of the Constitution.

Resolved. That Art. I. of Chapter II. of the Constitution of the St. Louis Mercantile Library Association be amended so as to read: —

CHAPTER II.: OF OFFICERS.

ART. I. The Officers of this Association shall be a President, Vice-President, Corresponding Secretary, Recording Secretary, Treasurer and seven Directors. No member to hold office of President or Vice-President more than two successive years.

On the third Tuesday of January, 1863, a full board of officers shall be chosen, as hereinafter provided, who, at their first regular meeting, shall proceed to divide themselves by lot, into two classes, consisting each of six members; one of which, constituting the first class, shall serve one year, and the other, constituting the second class, shall serve two years; and at each succeeding annual election, six members only shall be elected, to serve two years, to fill the places of those whose terms shall then expire; and no member of this Association shall be eligible to a seat in the Board of Direction unless he shall have been a member for at least twelve months previous to the election.

Nor shall more than two members not engaged in mercantile pursuits be eligible to office, or to seats in the Board of Direction.

Each amendment was fully discussed and unanimously adopted.

On motion of Mr. H. M. Filley, it was ordered that the proceedings of this meeting be furnished the city papers for publication, and that two thousand copies of the same be printed in pamphlet form for distribution.

On motion, the meeting adjourned.

J. C. HOWE,
Chairman.

ROBERT METCALF,
GEORGE C. STINDE,

PRESIDENT'S REPORT.

ST. LOUIS, January 8th, 1895.

To the Members of the St. Louis Mercantile Library Association:

The Board of Direction has the honor to submit its annual report of the affairs of the Association.

The income during the year 1894 was \$52,481.25, from the following sources:—

From Memberships.....	\$7,193 00
“ Fines and Miscellaneous Sources.....	3,488 25
“ Cash Donations.....	1,800 00
“ Rent.....	40,000 00
Total.....	<u>\$52,481 25</u>

The expenditures were \$54,717.65, as follows:—

For Part Payment of Second Mortgage Bonds.....	\$7,500 00
“ Interest on Mortgage Debt, and for Discount.....	13,524 79
“ Building and Electric Plant.....	12,940 27
“ Library Expense, and for Books and Periodicals.....	20,752 59
Total.....	<u>\$54,717 65</u>

As you will observe, we have paid off the last of the second mortgage bonds, \$7,500.00, and the bonded debt is now as follows:—

First Mortgage.....	\$250,000 00
---------------------	--------------

The floating debt is now \$8,559.71, having been increased during the year \$2,236.40, showing, however, a net gain in our finances for the year of \$5,263.60. This would have been considerably larger had it not been for the necessity

of replacing during the year two of the old dynamos, and putting in a ventilating fan, which occasioned an extra expense of \$2,977.77; on account of which we are again indebted to the constant and generous friend of the Library, Mr. Rob't S. Brookings, for a cash donation of \$1,300.00 in addition to his former donation during the previous year towards this object of \$1,200.00, and to Mr. I. W. Morton, for a cash donation of \$500.00. The difficulties of this department seem now to have been mastered, and for the greater part of the year it has been running very smoothly, under our present competent engineer, Mr. J. W. Chalcraft.

Based on the revenues of the past year, we confidently expect during the coming year to be able to pay off our entire floating indebtedness, and by a renewed canvass for members of the different classes, hope to be able to do even more.

We regret to report the loss by death during the year of twenty-two members, seven of whom were life members: —

Aug. S. Chouteau,
Jere W. Clemens,
Jno. T. Davis,

Wm. T. Haydock,
Jno. R. Lionberger,
Jos. M. Pettus,

Frederick Sessinghaus.

Mr. Lionberger was our faithful Treasurer for many years, and always a devoted friend of the Library.

Our membership has suffered a total net loss of 150 members. This may be ascribed in a great measure to the financial stringency of the past two years, and to the making of the Public School Library a Free Library. We feel gratified that the loss was not larger on this account, as it had been anticipated would have been the case; we think, however, that instead of suffering in the future from

this cause, we shall have a decided gain, as the two libraries occupy different spheres of usefulness, and are rather complementary than competitive to each other. No less than 65 of the withdrawals during the year were on account of leaving the city.

We expect however, as before stated, to renew the canvass of two years ago for additional members and hope at the end of this year, to be able to report a gain, instead of a loss.

There have been added to the Library, during the year, 4,191 volumes, and lost or condemned, 371, showing a net gain of 3,820 volumes.

The circulation shows a slight falling off from the previous year, viz.: 98,303 against 99,274; but the attendance has increased very largely, — from 169,992 to 194,327, — showing a much greater use of the reading and reference rooms.

The Duplicate Collection, which was instituted during the year, has been a decided success. By the purchase of additional copies, when necessary, to supply the great demand, and charging the small sum of ten cents, we have been enabled not only to increase the regular number of copies we have been accustomed to issue without charge, but also to add quite a fund for the purchase of new books. As many as 50 copies of one work have been purchased to supply the demand. This would not have been possible with our present revenues in any other way.

The cataloguing has progressed rapidly during the year, so that there are now but a few small classes left uncatalogued, and the whole work will probably be finished in the early summer.

A handsome bust of Mr. Jas. E. Yeatman, our highly respected and venerable first President, has been presented to the Library by some of his admirers, and friends of the Library, and now adorns our vestibule. It may well be

said, in view of those classic features and his great services to his fellow-citizens, “ here is ‘ the noblest Roman of them all ! ’ ”

The accompanying detailed reports of the Librarian and Treasurer, will supply full information of the affairs of the Association.

In closing, it is due that the entire staff of the Library should be commended for their zeal and faithful services.

Very respectfully,

WM. E. GUY,

President.

	<hr/>
	4,191 vols.

Besides these bound volumes we have received by gift 227 pamphlets and 161 charts.

The expenditures in this department have been as follows:—

For books.....	\$4,128 10
For periodicals (other than newspapers).....	1,229 64
For newspapers	465 65
For British patents (collating and binding)	411 41
For binding.....	1,081 24
Total.....	<u>\$7,316 04</u>

From the amount spent for books there is to be subtracted \$767.60 received from the Duplicate Collection (including volumes lost and paid for), and \$150 from the sale of condemned books, leaving \$3,210.50 spent from the regular income.

The most noteworthy gift of the year was a complete set of the Missouri sheets of the great topographical atlas of the United States which has long been in preparation by coöperation of the national and state geological surveys. The Missouri sheets thus far issued number 33, and take in the following counties:—

Audrain.	Clay.	Jasper.	Pettis.
Barton.*	Cole.	Johnson.	Pike.*
Bates.	Cooper.	Lafayette.	Platte.*
Benton.	Dade.	Lawrence.*	Polk.
Boone.	Dallas.*	Lincoln.*	Ralls.*
Buchanan.*	Franklin.*	Maries.*	Randolph.*
Callaway.	Greene.	Miller.	Ray.*
Camden.*	Gasconade.*	Moniteau.	St. Clair.
Carroll.*	Henry.	Monroe.*	Saline.
Cass.	Hickory.	Montgomery.	Vernon.
Cedar.	Holt.	Morgan.	Warren.*
Chariton.*	Howard.	Newton.*	Webster.*
Christian.*	Jackson.	Osage.*	

The maps are drawn on a scale of $\frac{1}{125000}$, with contour intervals of 50 feet, and correspond to the ordnance survey maps of European countries. Contiguous parts of Kansas are included in the Western Missouri sheets, and several Northern Arkansas sheets were received with the collection.

* In part.

These maps have only been printed *as proofs*, a very small number having been struck off for official use, and we believe that only three other public libraries possess them. They were secured through the courtesy of Maj. J. W. Powell, late director of the U. S. Geological Survey, after persistent efforts extending over the past two years.

We have also received from the Mississippi River Commission a complete set of its maps, charts, and other publications.

The above accessions, together with the series of the U. S. Coast Survey charts previously acknowledged, place our library in an exceptionally favored position as regards topographical material.

CIRCULATION.

The library was open 306 days in the year, and there were issued for home use 98,303 volumes, of which 75.2 per cent. was English fiction. Beginning with February 1st, the statistics of issue were kept in accordance with the new classification of the library, which is much better adapted than the old one to serve as an index of the class of reading done by our members. For the last eleven months of the year, the home issue was as follows:—

General works.....	3,750
Philosophy and Religion.....	1,120
Biography.....	2,295
History, Geography and Travels.....	4,813
Sociology	760
Natural Sciences.....	943
Industrial and Military Arts.....	894
Fine Arts and Recreative Arts.....	1,285
Language and Literature.....	6,700
Fiction.....	66,860
Total.....	89,420

Books for research are mostly used in the building, and if the statistics of library use were added to the above

table, a different showing would result. During the coming year we shall keep statistics of all books issued in the building, excepting those shelved in the reference room, and shall use the results as a guide in purchasing books.

The use of the library by students is growing, and we are more and more impressed by the fact that ours must become the scholars' library, the library for research, of this city.

Notwithstanding a slight decrease in the issue of books for home use, the attendance shows a gain of 24,245 over that of last year, or more than 14 per cent., having reached 194,237, which is an average daily attendance of 635. This increase may partly be ascribed to the change in hours of opening. In former years the library was open from 10 a. m. until 9 or 10 p. m., during the winter months. It is now open from 9 a. m. until 7 p. m., and we have found that more members use the library from 9 to 10 a. m. than from 7 to 10 p. m. But the chief reason for our increased attendance is undoubtedly the growing popularity of the reading room and reference department.

The decrease in the issue of books for home use was all in the early part of the year. The last six months have shown a turn of the tide, and we are now giving out more books than in 1893.

DUPLICATE NOVELS.

The experiment known as the "Duplicate Collection" of popular novels has been a marked success. It was begun in the middle of January by the expenditure of \$100 appropriated by the Board for that purpose. The following is its record for the year:—

Number of volumes purchased.....	579
Cost (including binding).....	\$495 04
Number of volumes issued.....	7,590
Receipts from (10) vols. lost.....	\$8 60
Receipts from issues.....	\$759 00
Total receipts.....	\$767 60

This shows a net balance of \$272.56, besides 569 volumes on hand, all of which are in good condition. The profits of the collection have been spent on extra copies of popular novels for regular issue without charge. We have not as yet sold any of the duplicates, since we find that after the demand for them as duplicates slackens we can use them to good advantage as regulars. Such books form what is called the "reserve," and do not figure as permanent accessions to the library.

CATALOGUE AND CLASSIFICATION.

Early in the year Miss Sanborn left us to accept the librarianship of the Public Library of Manchester, N. H. Her resignation was accepted with reluctance, as she had made an excellent record in our service. Miss Gilkey was thus left to finish the catalogue alone. She has shown the same skill, aptitude, and conscientious devotion to her work as did her predecessor. The new catalogue is now finished on cards for all departments of the library excepting Poetry and Drama, "Polygraphs," Medicine, Agriculture, a part of Engineering, Philosophy, Religion, general periodicals, and certain public documents. As the larger of these sections are mostly made up of long sets, it is expected that the work will progress rapidly.

All sections of the catalogue, excepting those mentioned above, are ready to go to press at any time.

Miss Edith Simmons was admitted as a student apprentice in the cataloguing department in November.

COLLECTION OF MISSOURIANA.

Until within the past year, there was no library in Missouri which contained the materials from which a good history of our own State could be written. A scholar undertaking such work would have been obliged to seek the facilities offered by eastern libraries.

We are now making a determined effort to bring together such a collection of *Missouriana* as will be not only creditable, but invaluable to students and writers. All books and pamphlets illustrating the history of Missouri which had been acquired were entered in a separate official catalogue last winter, and additions have been made as fast as our resources, and the opportunities of the market, would allow. We now have a collection of about two thousand volumes and pamphlets relating to Missouri, and to the Louisiana Territory down to December, 1812, when the Missouri Territory was separately organized. A public catalogue of these works is in course of preparation. To give an idea of the scope of this collection, I append a list of the headings in the classed catalogue: —

LOUISIANA (*Province, etc.*),

The library has been fortunate in securing a number of very rare books during the past year, but much remains to be done before the collection can be regarded as satisfactory. It may seem strange, but it is true, that we experience far less trouble in obtaining such a book as Hennepin's *Nouveau voyage*, printed in 1698, than in completing a set of the reports of almost any department of our own state or municipal governments, or of any local institution. It is especially in securing material of the latter description, that the help of our members and friends is earnestly requested.

Respectfully submitted,

HORACE KEPHART,
Librarian.

APPENDIX A.

LIST OF DONORS FOR THE YEAR 1894.

The following list enumerates only such gifts as did not duplicate volumes or pamphlets already on our shelves. It includes works received in exchange for our own publications, but not those received in exchange for duplicate books.

Periodicals, including library bulletins, etc., are acknowledged in Appendix B.

In the present list, a pamphlet received in paper covers but afterwards bound separately by the Library counts as a volume. Similarly, a collection of pamphlets bound together counts as a single volume.

Parts of a work, received, but awaiting the completion of the volume, are not entered here.

When more than one copy of a work has been received, but one copy is entered in this list, unless it was deemed advisable to put more than one in circulation, in which case the number of copies entered in the accessions-book is here credited to the donor.

APPENDIX F.

STATISTICS OF THE ST. LOUIS MERCANTILE LIBRARY.

1876-1894.

For many years it was customary to print in each Annual Report of the Library a "Table of Results," giving statistics of membership, books, circulation, receipts, expenditures and property, from the opening of the Library in 1846 to date. The last of these tables was published in the Report for 1876, in which may be found the statistics of the first thirty years of the Library's growth.

In the following pages, the same tabular statement is continued from 1876 to 1894, but in an expanded form: —

FIFTIETH ANNUAL MEETING
OF THE
ST. LOUIS
MERCANTILE LIBRARY ASSOCIATION,
JANUARY 14, 1896.

**ROOMS OF THE MERCANTILE LIBRARY ASSOCIATION, }
St. Louis, January 14th, 1896. }**

The fiftieth annual meeting of the St. Louis Mercantile Library Association was called to order in the Reading-Room at 8:00 p. m., by the President, Mr. Wm. E. Guy, who called Mr. Archie W. Douglass to the chair.

Messrs. Robert Metcalf and J. A. Sublette were appointed Secretaries.

The minutes of the last meeting were read and approved.

Mr. Wm. E. Guy, President, submitted the report of the Board of Direction for the past year, which, on motion, was unanimously adopted.

The Committee on Ways and Means submitted the following report, which, on motion, was received and adopted:—

The Committee on Ways and Means respectfully reports that it has examined the books and accounts of the Association and finds the same correct, and that there are satisfactory vouchers for all expenditures during the year 1895.

I. W. MORTON,
Chairman.

Mr. Henry C. Scott, Treasurer, read his report, showing the receipts and disbursements during the year ending December 31st, 1895. On motion, the report was received and adopted.

Mr. Horace Kephart, Librarian, submitted his report on the condition of the Library and the progress made during the past year. On motion, the report was received and adopted.

Mr. Alfred Carr offered the following resolution, which was unanimously adopted :—

Resolved, That the thanks of the Association are hereby tendered to the officers and members of the Board of Direction for their able management, which has resulted in expunging the floating debt and opening for the Association the way to a wider field of usefulness.

On motion of Mr. A. L. Shapleigh, it was ordered that the proceedings of this meeting be furnished the city papers for publication, and that two thousand copies of the same be printed in pamphlet form for distribution.

On motion, the meeting adjourned.

ARCHIE W. DOUGLASS,
Chairman.

ROBERT METCALF,
J. A. SUBLETTE,
Secretaries.

PRESIDENT'S REPORT.

ST. LOUIS, MO., January 14th, 1896.

To the Members of the Mercantile Library Association:

The Board of Direction has the honor to submit its annual report of the affairs of the Association, and to congratulate the members upon their good showing.

For details the accompanying reports of the Librarian and Treasurer are referred to.

You will recollect the statement in our last annual report: "Based on the revenues of the past year we confidently expect during the coming year to pay off our entire floating indebtedness, and hope to be able to do even more;" and it is with pleasure that we are able to report that we have not disappointed you and ourselves.

The floating debt as it then appeared on our books was \$10,000 (or a net amount of \$8,559.11 after deducting the cash on hand, \$1,440.29 — see Treasurer's Report, 1894), and this has not only been entirely wiped out, but also \$2,000 in addition paid on \$2,500 of new indebtedness incurred not connected with the proper running expense of the Library, as will now be explained.

It is still more gratifying to be able to report that we have been enabled to replace the 5% bonded indebtedness of \$250,000 due in 1898 with a 4½% simpler mortgage indebtedness due in 1905, thus effecting an annual saving of \$1,250 in interest, and with the same favorable option of paying off all or part (in sums of \$10,000) on any semi-annual interest pay day; besides extending maturity of loan.

To effect this, however, a commission of \$2,500 had to be paid, which, as stated above, has also all been paid off during the year with exception of \$500 due in February: this makes a total of \$10,559.71 floating indebtedness paid off, and a total in gain for the year not including commission paid,—but including value of books added by purchase — of \$15,567.70 (if \$2,000 amount paid out on dead account of commission could have been added the net gain would have been \$17,567.70).

This desirable result has been accomplished by strict economy,—not, however, we are glad to state, by the reduction of our literature purchases, which were larger this year than any year since 1877.

The thanks of the Association were due and given to Messrs. Chas. H. Turner & Co., for accepting one-half of the regular commission, and receiving the amount in installments.

The receipts during the year 1895 were as follows: —

Cash balance on hand January 2.....	\$1,440 29
From memberships.....	8,073 50
“ Fines and Miscellaneous Sources.....	8,882 43
“ Rent.....	40,000 00
Total.....	<u>\$58,396 22</u>

The expenditures were: —

For Interest on Mortgage and Discount.....	\$12,892 72
“ Library Expense, Books, Periodicals.....	20,760 24
“ Building and Electric Plant.....	8,185 00
“ Floating indebtedness existing January 1, 1895.....	10,000 00
“ Commission on replacing loan	2,000 00
“ Cash balance on hand.....	108 26
Total.....	<u>\$53,896 22</u>

It would be improper to permit you to have the impression that we have come into the open solely through the

efforts of the present board. The hardest work was done by previous boards, some of their individuals being, however, members of this board ; but all have labored earnestly and as a labor of love for the good of the Library.

We regret to report the loss by death during the year of eleven life members:—

Peter Behr, Hiram L. Liggett, E. W. Pike, John A. Tacket, R. W. Goode, Geo. Loker, John F. Scherpe, Chas. L. Thompson, Horace W. Hibbard, Hugh McKittrick, Miles Sells.

The duplicate collection continues to be successful.

The cataloguing is practically finished, leaving only the current work of accessions.

It has not been possible hitherto to place at once the books taken out, and to check rapidly and notify when overdue ; but in the last two years the very simple system has been introduced of taking a duplicate carbon slip, when a book is given out, and classifying by number of books, as well as by numbers of members, so that where books *are* as well as *what* books any member has (the only system before), can be found immediately and without the work of going over the whole list of numbers of members.

In closing, it is due that the entire staff of the Library, both Librarian and Engineer forces, should be commended for their zeal and faithful services.

Very respectfully,

WM. E. GUY,

President.

LIBRARIAN'S REPORT.

St. LOUIS, January 14th, 1896.

Total receipts	<u>\$674 95</u>

CATALOGUE AND CLASSIFICATION.

As no inventory had been made of the Library for many years, the estimate of the time it would take to catalogue and classify our books could only be approximate. We have found a larger number of volumes on the shelves than was anticipated, and it was impossible to finish the new catalogue as early as we had hoped. Miss Gilkey, who had labored hard to complete the work, received in November an appointment to the librarianship of the Free Library of Washington, D. C., and accepted it. Miss Edith Simmons, who had been a student in our cataloguing department for over a year, was engaged to succeed Miss Gilkey, and has carried out the work successfully. Only a small number of volumes remain to be entered, including the section of Medicine, part of Theology, and a few public documents.

BINDING.

Owing to causes mentioned in a former report, the deterioration of binding in past years has been excessive, and has led to the substitution of canvas or muslin for leather in binding many classes of books. During the year we have not only kept up the current work, but have rebound some long sets of periodicals and other important works, and the Library now presents a much better appearance than formerly.

Respectfully submitted,

HORACE KEPHART,

Librarian.

APPENDIX A.

LIST OF DONORS FOR THE YEAR 1895.

The following list enumerates only such gifts as did not duplicate volumes or pamphlets already on our shelves. It includes works received in exchange for our own publications, but not those received in exchange for duplicate books.

Periodicals, including library bulletins, etc., are acknowledged in Appendix B.

In the present list, a pamphlet received in paper covers but afterwards bound separately by the Library counts as a volume. Similarly, a collection of pamphlets bound together counts as a single volume.

Parts of a work, received, but awaiting the completion of the volume, are not entered here.

When more than one copy of a work has been received, but one copy is entered in this list, unless it was deemed advisable to put more than one in circulation, in which case the number of copies entered in the accessions-book is here credited to the donor.

APPENDIX F.

STATISTICS OF THE ST. LOUIS MERCANTILE LIBRARY.

1876-1895.

For many years it was customary to print in each Annual Report of the Library a "Table of Results," giving statistics of membership, books, circulation, receipts, expenditures and property, from the opening of the Library in 1846 to date. The last of these tables was published in the Report for 1876, in which may be found the statistics of the first thirty years of the Library's growth.

In the following pages, the same tabular statement is continued from 1876 to 1895, but in an expanded form:—

FIFTY-FIRST ANNUAL MEETING
OF THE
ST. LOUIS
MERCANTILE LIBRARY ASSOCIATION,

JANUARY 12, 1897.

ROOMS OF THE MERCANTILE LIBRARY ASSOCIATION, }
ST. LOUIS, January 12th, 1897. }

The fifty-first annual meeting of the St. Louis Mercantile Library Association was called to order in the Reading-Room at 8:00 p. m., by the President, Mr. I. W. Morton, who called Mr. Archer W. Douglas to the chair.

Messrs. Robert Metcalf and J. A. Sublette were appointed Secretaries.

The minutes of the last meeting were read and approved.

Mr. I. W. Morton, President, submitted the report of the Board of Direction for the past year, which, on motion, was unanimously adopted.

The Committee on Ways and Means submitted the following report, which, on motion, was received and adopted: —

The Committee on Ways and Means respectfully reports that it has examined the books and accounts of the Association and finds the same correct, and that there are satisfactory vouchers for all expenditures during the year 1896.

H. N. DAVIS,
Chairman.

Mr. Henry C. Scott, Treasurer, read his report, showing the receipts and disbursements during the year ending December 31st, 1896. On motion, the report was received and adopted.

Mr. Horace Kephart, Librarian, submitted his report on the condition of the Library and the progress made during the past year. On motion, the report was received and adopted.

Mr. W. L. Tribbe offered the following resolution, which was unanimously adopted: —

Resolved, That the cordial thanks of the Association be hereby tendered to the President and his associates on the Board of Direction for their untiring zeal in behalf of the Library, and for the success that has crowned their efforts.

On motion of Mr. Henry Stanley, it was ordered that the proceedings of this meeting be furnished the city papers for publication, and that two thousand copies of the same be printed in pamphlet form for distribution.

On motion, the meeting adjourned.

ARCHER W. DOUGLAS,
Chairman.

ROBERT METCALF,
J. A. SUBLETTE,
Secretaries.

PRESIDENT'S REPORT.

ST. LOUIS, MO., January 12th, 1897.

To the Members of the St. Louis Mercantile Library Association:

In conformity with Article 9 of our Constitution, the Board of Direction takes pleasure in submitting to the members of the Association the annual report for the year 1896.

The receipts for the year were as follows: —

Cash balance on hand January 2d, 1896.....	\$108 26
From Memberships.....	6,659 00
“ Fines and miscellaneous sources.....	3,485 15
“ Sale of numismatic collection.....	598 24
“ Rent.....	40,000 00
	<hr/>
	\$50,850 65

The expenditures were: —

For Discount and for interest on mortgage.....	\$11,426 48
“ Balance due on commission for replacing loan.....	500 00
“ Library expense and for books and periodicals.....	22,648 06
“ Building, furniture and electric light plant.....	8,095 42
	<hr/>
	\$42,669 96
Cash on hand January 2d, 1897.....	8,180 69
	<hr/>
	\$50,850 65

By an examination of the reports of the Treasurer and Librarian it is shown that although our receipts from Perpetual and Life Memberships, which necessarily are an irregular and uncertain source of revenue, were \$1,050.00 less than in the preceding year, the receipts from other classes of memberships were nearly the same, and the loss in members was only $3\frac{1}{10}\%$.

As the year was one of unusual business depression, we should feel satisfied with this result, more particularly so because the circulation of books and the attendance, which are the proper measure of the Library's usefulness, have been normal.

The appropriation for books was increased \$1,000.00, the amount expended for them being the largest since the year 1877.

In the purchase of books the Book Committee has exercised unusual care and thought, with the idea of having the great majority of accessions, books of permanent value, the gain in this direction being specially marked in our department of American History, which is now one of the richest in the West.

The amount used for binding was much larger than in the past, which, taken in connection with the increased expenditures in the way of miscellaneous repairs, has put the Library in excellent condition.

Notwithstanding these increased expenses, which were very necessary, on the 23rd day of February, when our semi-annual interest falls due, we will have on hand sufficient cash to pay it, and six months later we can take up \$10,000.00 of our mortgage indebtedness, and it is our expectation and hope that the start we shall make towards liquidating this obligation will be repeated from year to year with uninterrupted regularity.

The entire Library is now catalogued and classified,

which enables us to give much more prompt and satisfactory service to our members.

We regret to report the loss by death during the year of 34 members, 13 of whom were life members, namely:—

Edward Bredell, Frank Carter, Edwin F. Chappell, W. J. Gilbert, Jno. M. Gilkerson, Geo. A. Hynes, E. B. Kirby, R. B. Meriwether, Wm. N. Morrison, Jas. J. Scanlan, Montgomery Schuyler, Charles Speck, Jas. T. Wilson.

In conclusion, it is but just to the entire Library force to acknowledge the efficient and faithful performance of their duties, and to state that whatever improvement and progress may have been made is largely due to them.

Yours respectfully,

I. W. MORTON,

President.

LIBRARIAN'S REPORT.

ST. LOUIS, January 12th, 1897.

GIFTS.

The Library has received from H. H. the Maharaja of Jeypore a set of the Jeypore Portfolio of Architectural Details, London, 1890, in six volumes, folio, published under His Highness' supervision, and at his expense. It was issued only for private distribution among institutions of learning. This superb work has been suitably bound, and forms one of the ornaments of our reading room. It is interesting to record that our copy was one of only two sets left, and that the gift was prompted by sympathy awakened by the terrible experience of our city during the tornado of last May.

We are indebted to Mr. Henry Stanley, of the Board of Direction, for a set of the Records of the Governor and Company of Massachusetts Bay, edited by N. B. Shurtleff, Boston, 1853-54, in six volumes, quarto. This work, of the first importance to historical students, was on our list of colonial archives to be purchased, and Mr. Stanley has generously saved us considerable expense.

From Mr. E. C. Simmons we have received a copy of One Hundred Years of American Commerce, edited by Chauncey M. Depew, N. Y., 1895, in two volumes, quarto. Mr. W. G. Simmons has presented a valuable early map

of St. Louis. Other gifts are acknowledged in the appendix to this report.

BINDING.

The increased expenditure for binding will be justified by anyone who strolls through the book-room and remembers its appearance a few years ago. Instead of the long rows of books in tatters, he will now find most of our treasures clothed in neat and substantial dress. The sale of our coin collection added \$492.11 to the binding appropriation. This was spent in rebinding our collection of early St. Louis newspapers, and several long sets of magazines.

GENERAL IMPROVEMENTS.

During the past year the rooms have been whitened, the skylight repaired and its screens renewed, new awnings and window shades provided, six double cases erected in the second tier of the book-stack, and tie-rods inserted in the lower tier. In rearranging our books to correspond with the new classification, we have omitted one shelf from each case, thus bringing every volume within arm's reach and doing away with step-ladders. We have saved considerable shelf-room by placing folios on the top shelf. After some repairs have been made to the furniture our rooms will be in excellent order.

In spite of the loss of members, due to hard times, our Library is in a more prosperous condition than ever, and gives its patrons better service. The past year has brought us the most important addition of books since the purchases made from the Squier, Drake, and Menzies collection in 1877. With the card catalogue and classification finished, we can now consider plans that have been prepared for a cumulative printed catalogue, which promises to solve a

difficulty once thought insurmountable — that of a printed catalogue, in book form, which shall not become obsolete.

I look forward to the new year with confidence that it will prove the most successful in our annals. Hitherto it has strained our resources to meet the demand for books. I trust that the time has come when the Mercantile Library can step forth and create new demands.

Respectfully submitted,

HORACE KEPHART,
Librarian.

APPENDIX A.

LIST OF DONORS FOR THE YEAR 1896.

The following list enumerates only such gifts as did not duplicate volumes or pamphlets already on our shelves. It includes works received in exchange for our own publications, but not those received in exchange for duplicate books.

Periodicals, including library bulletins, etc., are acknowledged in Appendix B.

In the present list, a pamphlet received in paper covers but afterwards bound separately by the Library counts as a volume. Similarly, a collection of pamphlets bound together counts as a single volume.

Parts of a work, received, but-awaiting the completion of the volume, are not entered here.

When more than one copy of a work has been received, but one copy is entered in this list, unless it was deemed advisable to put more than one in circulation, in which case the number of copies entered in the accessions-book is here credited to the donor.

APPENDIX F.

STATISTICS OF THE ST. LOUIS MERCANTILE LIBRARY.

1877-1896.

For many years it was customary to print in each Annual Report of the Library a "Table of Results," giving statistics of membership, books, circulation, receipts, expenditures and property, from the opening of the Library in 1846 to date. The last of these tables was published in the Report for 1876, in which may be found the statistics of the first thirty years of the Library's growth.

In the following pages, the same tabular statement is continued from 1877 to 1896, but in an expanded form: —

JANUARY 11, 1898.

**ROOMS OF THE MERCANTILE LIBRARY ASSOCIATION, }
ST. LOUIS, January 11, 1898. }**

The fifty-second annual meeting of the St. Louis Mercantile Library Association was called to order in the Reading-Room at 8:00 p. m., by the President, Mr. I. W. Morton, who called Mr. Archer W. Douglas to the chair.

Messrs. W. G. Simmons and Robert Metcalf were appointed Secretaries.

The minutes of the last meeting were read and approved.

The Committee on Ways and Means submitted the following report, which, on motion, was received and adopted: —

The Committee on Ways and Means respectfully reports that it has examined the books and accounts of the Association and finds the same correct, and that there are satisfactory vouchers for all expenditures during the year 1897.

H. N. DAVIS,
Chairman.

Mr. I. W. Morton, President, submitted the report of the Board of Direction for the past year, which, on motion, was unanimously adopted.

Mr. Henry C. Scott, Treasurer, read his report, showing the receipts and disbursements during the year ending December 31st, 1897. On motion, the report was received and adopted.

Mr. Horace Kephart, Librarian, submitted his report on the condition of the Library and the progress made during the past year. On motion, the report was received and adopted.

Mr. A. C. Carr offered the following resolution, which was unanimously adopted:—

Resolved, That the Association hereby expresses its grateful appreciation of the able conduct of its affairs by the President and Board of Direction, and that a vote of thanks be tendered these gentlemen for the improved condition of the Library and of our finances.

On motion of Mr. Alfred Carr, it was ordered that the proceedings of this meeting be furnished the city papers for publication, and that two thousand copies of the same be printed in pamphlet form for distribution.

On motion, the meeting adjourned.

ARCHER W. DOUGLAS,
Chairman.

W. G. SIMMONS,
ROBERT METCALF,
Secretaries.

PRESIDENT'S REPORT.

ST. LOUIS, MO., January 11th, 1898.

To the Members of the Mercantile Library Association:

In compliance with the instructions outlined in our Constitution, the Board of Direction takes pleasure in submitting to the members of the Association its annual report for the year 1897.

The receipts of the year were as follows: —

Cash Balance on hand January 2, 1897.....	\$8,180 69
From Memberships.....	5,865 50
“ Fines and Miscellaneous Sources.....	3,865 53
“ From sale of organ.....	250 00
“ Rent.....	40,000 00
	<hr/>
	\$58,161 72

The expenditures were: —

For Discount and Interest on Mortgage.....	\$11,339 01
“ Payment on Bond.....	10,000 00
“ Library Expense and for Books and Periodicals.....	22,741 96
“ Building, Furniture and Electric Light Plant.....	11,063 50
	<hr/>
	\$55,144 47
Cash on hand January 2, 1898	3,017 25
	<hr/>
	\$58,161 72

During the year a renewal of the lease with our present tenants has been effected for a period of years, which was conditional on our making various alterations and repairs.

Most of these conditions have been complied with, which will explain the increase in building expense over 1896, and also the item of electric wiring in the Treasurer's report. Notwithstanding the unexpected expense incurred in this direction, and the fact that the sum disbursed for books and binding was the largest in twenty years, we have been able to pay \$10,000.00 of our mortgage indebtedness, as predicted in our last annual report, and to start the present year with a cash balance on hand of \$3,017.25.

We have had built twelve double book cases, in which can be stored 20,000 volumes. We have re-upholstered the furniture in the reading room and offices, and in several other ways made improvements which, taken in connection with those previously referred to, justifies us in stating that the physical condition of the library and building is better than for many years past.

The introduction of the "three books" rule the middle of the year has resulted in a most gratifying increase of the circulation of books other than fiction.

The percentage of the different classes of books issued had been nearly uniform for years, but the contrast in this respect between the last half of 1896 and 1897 is shown by the following figures, which tend to strengthen our belief and hope that the function of our Library will be more and more in the line of furnishing the resources for higher education.

	PERCENTAGE ISSUED.	
	1896.	1897.
General Works.....	3.64	5.93
Philosophy and Religion.....	1.20	2.05

Non-Fiction	21.96	33.58
English Fiction	78.04	66.42
	<hr/>	<hr/>
	100.00	100.00

We regret to report the loss by death during the year of one honorary member, Dwight W. Marsh, and eight life members:—

M. D. Dodd, Fred B. Ewing, Jno. C. Kennett, Dr. Jas. M. Leete, Jas. L. Patterson, Geo. J. Plant, B. A. Pratte, Mrs. F. W. Tillay.

The interest of the Library force in their earnest endeavor to do their full duty in their respective positions, continues unabated, and great credit is due to them for their earnest and very intelligent and efficient service.

I. W. MORTON,
President.

LIBRARIAN'S REPORT.

St. Louis, January 11, 1898.

To the Board of Direction of the St. Louis Mercantile Library Association:

GENTLEMEN — I herewith submit my annual report for the year ending December 31st, 1897, with accompanying statistics showing the condition of the Library on that date.

MEMBERSHIP.

We have added during the year 214 new members, as follows:—

Honorary members.....	1
Life members.....	1
Proprietors.....	5
Clerks.....	65
Beneficiaries.....	143
Total.....	215

We have lost by death, resignation or removal from the city:—

Honorary members.....	1

THREE BOOKS RULE.

At the July meeting of the Board of Direction, Article 8 of the By-Laws and Regulations was amended so as to read as follows: —

ARTICLE 8. He [the Librarian] shall deliver to any member applying personally, or to his written order, three volumes, *provided that these*

do not include more than one work of fiction. He may loan to members additional books, such members being required to pay ten cents for each two weeks or fractional part thereof, for each volume; *provided* that duplicate copies of books purchased to meet only a temporary demand shall be issued only as extra books at ten cents a volume for each week, and that such books shall not be subject to renewal.

This article had previously allowed a member to draw only one volume at a time, or three volumes of a set, without extra charge. The rule was modified to encourage serious reading, and to accommodate scholars, who frequently need a number of works at a time for study or comparison. The effect of this innovation upon the character of our issues has been remarkable, as will be seen from the following table: —

	<i>Issued for Home Use.</i>	
	<i>July-Dec.,</i>	<i>July-Dec.,</i>
	<i>1896.</i>	<i>1897.</i>
General works (magazines, etc.).....	1,631 vols.	2,935 vols.
Philosophy and Religion.....	538	1,015
Biography.....	1,027	1,832
History, Geography, Travels.....	1,954	3,422
Sociology	837	966
Natural Sciences.....	450	807
Industrial and Military Arts.....	286	535
Fine Arts and Recreative Arts.....	500	1,049
Language and Literature.....	2,626	4,043
	— — —	— — —
Non-Fiction.....	9,849 vols.	16,604 vols.
English Fiction.....	35,043 “	32,877 “
	— — —	— — —
Total.....	44,892 vols.	49,481 vols.

This result is all the more noteworthy from the fact that the three hot months are included, when the circulation of fiction is normally high, and that of other departments is low.

BOOKS PURCHASED.

With the exception of a few belated works properly belonging with the collection of American historical so-

cieties' publications ordered last year, the purchases of 1897 have been of a miscellaneous nature. Among the more expensive works added were the following:—

GIFTS.

We have received from the St. Louis Spanish Club a sumptuously illustrated work entitled "*México à través de los siglos*" in five folio volumes. This is a history of the social, political, religious, military, artistic, scientific, and literary development of Mexico, from the earliest times to the present.

Mr. Frank Ohear has presented to the library a set of the "*Œuvres complètes de Châteaubriand*" Paris, Pourrat, 1836-40, in 36 volumes, octavo.

To the kindness of Mr. Douglas Brymner, Canadian archivist, we are indebted for a set of the "*Report on Canadian archives, 1883-96*," Ottawa, 1884-97, 14 volumes,

a work of the first importance to students of American history.

Mr. Ernest P. Olshausen has given us his copy of an extremely rare work relating to the early history of the West, written by Dr. F. A. Wislizenus, a former resident of St. Louis, and printed at the office of the *Anzeiger des Westens*, St. Louis, in 1840. The work is entitled "*Ein Ausflug nach den Felsen-Gebirgen im Jahre 1839.*" and contains the narrative of a trading expedition from St. Louis to the Rocky Mountains, with notes on the topography, natural history, and Indian tribes of the west, and an original map of the territory west of the 100th meridian and north of the Arkansas river.

GENERAL IMPROVEMENTS.

Twelve double book-cases have been erected in the upper tier of the book room, with a capacity of shelving 20,000 volumes. All the unbound periodicals which had accumulated were assorted, a large number were bound, and those of doubtful value were destroyed. Our furniture has been re-upholstered in corduroy, which will be found more durable than leather.

Respectfully submitted,

HORACE KEPHART.

APPENDIX A.

LIST OF DONORS FOR THE YEAR 1897.

The following list enumerates only such gifts as did not duplicate volumes or pamphlets already on our shelves. It includes works received in exchange for our own publications, but not those received in exchange for duplicate books.

Periodicals, including library bulletins, etc., are acknowledged in Appendix B.

In the present list, a pamphlet received in paper covers but afterwards bound separately by the Library counts as a volume. Similarly, a collection of pamphlets bound together counts as a single volume.

Parts of a work, received, but awaiting the completion of the volume, are not entered here.

When more than one copy of a work has been received, but one copy is entered in this list, unless it was deemed advisable to put more than one in circulation, in which case the number of copies entered in the accession-book is here credited to the donor.

APPENDIX F.

STATISTICS OF THE ST. LOUIS MERCANTILE LIBRARY.

1877-1897.

For many years it was customary to print in each Annual Report of the Library a "Table of Results," giving statistics of membership, books, circulation, receipts, expenditures and property, from the opening of the Library in 1846 to date. The last of these tables was published in the Report for 1876, in which may be found the statistics of the first thirty years of the Library's growth.

In the following pages, the same tabular statement is continued from 1877 to 1897, but in an expanded form:—

FIFTY-THIRD ANNUAL MEETING
OF THE
St. Louis Mercantile Library Association

January 10, 1899.

**ROOMS OF THE MERCANTILE LIBRARY ASSOCIATION, }
St. Louis, January 10, 1899. }**

The fifty-third annual meeting of the St. Louis Mercantile Library Association was called to order in the Reading Room at 8:00 o'clock P. M., by the President, Mr. H. N. Davis, who called Mr. Archer W. Douglas to the chair.

Messrs. W. G. Simmons and Robert Metcalf were appointed Secretaries.

The minutes of the last meeting were read and approved.

The Committee on Ways and Means submitted the following report, which, on motion, was received and adopted:

The Committee on Ways and Means respectfully reports that it has examined the books and accounts of the Association and finds the same correct, and that there are satisfactory vouchers for all expenditures during the year 1898.

ROBERT MCK. JONES,
Chairman.

Mr. H. N. Davis, President, submitted the report of the Board of Direction for the past year, which, on motion, was unanimously adopted.

The report of Mr. Henry C. Scott, Treasurer, was read by Mr. B. S. Adams, showing the receipts and disburse-

ments during the year ending December 31st, 1898. On motion, the report was received and adopted.

Mr. Horace Kephart, Librarian, submitted his report on the condition of the Library and the progress made during the past year. On motion, the report was received and adopted.

Mr. Alfred Carr offered the following amendments to the Constitution and By-Laws of the St. Louis Mercantile Library Association :

Resolved, That Article 3, Chapter I., of the Constitution be amended to read as follows :

ARTICLE 3. Any person may, upon approval of the Board of Direction, become a member of this Association by subscribing to the Constitution and paying the dues provided in the By-Laws.

That Article 5, Chapter I., of the Constitution be expunged, and subsequent Articles be re-numbered accordingly.

That Article 7, Chapter I., of the Constitution be amended to read as follows :

ARTICLE 6. A perpetual membership is hereby created, the price of which shall be one hundred dollars, negotiable and transferable to such party as may have been approved by the Board of Direction, which membership shall perpetually entitle the owner to all the privileges of membership, except the right to hold office as hereinafter limited by Article 1, Chapter II., of the Constitution.

That a new Article be inserted in the By-Laws, as follows :

ARTICLE X. *Membership Dues*.—The membership dues in this Association shall be as follows :

1. For all persons other than clerks, five dollars annually or two and one-half dollars for six months, payable in advance.

2. For clerks, three dollars annually or one and one-half dollars for six months, payable in advance.

The amendments were carried.

Mr. Alfred Carr offered the following resolution, which was unanimously adopted :

Resolved, That the reports submitted to the Association show a marked and substantial progress, and that we hereby tender our grateful acknowledgment of the efficient services of the President and his associate Directors during the past year.

On motion of Mr. A. C. Carr, it was ordered that the proceedings of this meeting be furnished the city papers for publication, and that two thousand copies of the same be printed in pamphlet form for distribution.

On motion the meeting adjourned.

PRESIDENT'S REPORT.

ST. LOUIS, MO., January 10, 1899.

To the Members of the Mercantile Library Association:

The Board of Direction takes pleasure in submitting to the members of the Association its annual report for 1898:

RECEIPTS.

Cash Balance on hand January 3, 1898.....	\$ 3,017.25

	\$53,660.57

During the year we have made quite a number of changes, repairs and alterations to our building. The fire in Mermod-Jaccard Building in December, 1897, required us to renew much of the plate glass on the north side of our building; also it was found necessary to have all the wood-work on this side re-painted. The cost of this work was covered by the amounts collected on our insurance policies. On August 1st the new lease with our present tenants went into effect. The terms of this lease required

us to put in thorough order all engines, boilers, elevators, floors, electric wires and plumbing, also to paint all outside wood and iron-work. In addition to this we were required to overhaul and make some changes in our steam heating plant. All this has been done, and although at considerable cost, yet it was necessary to put our building and machinery in absolutely good condition.

During the year we have installed a complete automatic sprinkler plant, which will pay for itself in a few years by the decreased cost of insurance, and at the same time make our property as free from fire loss as it is possible to obtain.

We have been able to secure a new loan on our real estate at a much lower rate of interest, and during the year we paid off the former loan of \$240,000 by the new loan, and this will make a saving of \$1,200 per annum on the amount of our present indebtedness.

The Librarian reports that the attendance and circulation have increased this year over previous ones, which shows that the members are taking advantage of the fine opportunities here offered for mental improvement and enjoyment. It is with regret we have to report a slight falling off in our membership, but we hope and expect that by making a few changes in our Constitution and By-Laws, which will be offered at this meeting, not only to prevent further loss, but make a good start for an increase in our membership.

We have lost by death the following life members: William K. Wilson, Charles Belcher, William H. Benton, Robert Eagle, Carlos S. Greeley, J. B. S. Lemoine, George F. Pickel, William Roeber and William T. Tracy.

Mr. J. B. S. Lemoine was President of the Library Association from 1859 to 1860, and a Trustee from 1876 until his death.

The thanks of the Board are due to the Librarian, Actuary and Assistants for the faithful and earnest performance of all duties, and in this we are sure our members will heartily join.

Respectfully submitted,

H. N. DAVIS,
President.

LIBRARIAN'S REPORT.

ST. LOUIS, January 10, 1899.

To the Board of Direction of the St. Louis Mercantile Library Association:

GENTLEMEN—I herewith submit my annual report for the year ending December 31, 1898, with accompanying statistics showing the condition of the Library on that date.

MEMBERSHIP.

We have added during the year 203 new members, as follows:

Perpetual member	1
Proprietor	1
Clerks	53
Beneficiaries	148
Total	<hr/> 203

We have lost by death, resignation or removal from the city:

Life members	9
Proprietors	25
Clerks	98
Beneficiaries	146
Total	<hr/> 278

Leaving our membership, December 31, 1898, as follows :

Honorary members.....	17
Perpetual members.....	1,308
Life members.....	564
Proprietors.....	145
Clerks.....	675
Beneficiaries.....	672
Total	3,381

Showing a net loss for the year of 75 members.

BOOKS ADDED, 1897.

The following additions have been made to the Library :

	BOUND VOLS.
Accessions by purchase	3,619
" " periodicals bound	404
" " newspapers bound	4
" " exchange	3
" " gift	1,016
" " vols. not previously entered.....	30
" " " trans. from duplicate collection	724
Total accessions, 1898	5,800
Number of volumes reported December 31st, 1897..	101,281
Making	107,081
Deduct books lost and paid for	59
" " worn out and condemned	478
	537
Leaving in Main Library, December 31st, 1898	106,544
Collection of duplicate novels	524
" " " " in reserve	198
Hitchcock collection (deposited).....	269
U. S. patent specifications (deposited)	429
	1,420
Total	107,964

The above total does not include volumes unbound.

The additions for the year are classified as follows :

General works	246
Philosophy and Religion	165
Biography	385
History, Geography, and Travels	857
Sociology (including public documents)	650
Natural Sciences	246
Industrial and Military Arts	462
Fine Arts and Recreative Arts	206
Language and Literature	683
English Fiction	1,950
	<hr/>
	5,800 vols.

Besides these bound volumes we have received by gift 205 pamphlets.

The unusual number of novels added is owing to the transfer of 724 volumes from the duplicate collection as extra copies for free circulation.

The expenditures in this department have been as follows :

For books	\$6,811 40
For periodicals (other than newspapers)	1,298 91
For newspapers	500 96
For British patents (collating and binding)	453 22
For binding	1,204 53
	<hr/>
Total	\$9,769 02

From the amount spent for books there is to be subtracted \$579.55 received from the duplicate collection (including volumes lost and paid for), leaving \$5,731.85 spent from the regular income.

In the collection of duplicate novels there are now 524 volumes. The receipts from this collection exceeded expenses by \$428.28.

CIRCULATION.

The Library was open 307 $\frac{1}{2}$ days in the year, and there were issued for home use 101,839 volumes. The home issue was distributed thus:

General works	6,372 vols.	6.25 per cent.
Philosophy and Religion	2,162	2.12
Biography	4,000	3.93
History, Geography and Travels	6,827	6.70
Sociology	2,132	2.10
Natural Sciences	1,431	1.41
Industrial and Military Arts	1,230	1.21
Fine Arts and Recreative Arts	2,089	2.05
Language and Literature	8,424	8.27
Non-Fiction	34,667	34.04
Fiction (including Juvenile F)	67,172	65.96
Total	101,839	100.00

This is an increase of 5,673 volumes over the circulation of 1897.

It is gratifying to report that while the issue of Fiction has fallen off about 10 per cent. in the last five years, the issue of Non-Fiction has increased more than 40 per cent., as will be seen from the following table:

BOOKS ISSUED FOR HOME USE, 1894-1898.

	Non-Fiction.	Fiction.	Total.	Percentage of Fiction.
1894	24,181	74,122	98,303	75.2
1895	22,800	71,235	94,135	75.7
1896	21,590	71,980	93,570	76.9
1897	28,587	67,579	96,166	70.2
1898	34,667	67,172	101,839	65.9

When we consider that a large part of the solid study done by our members is carried on in our reading room and reference room, and that no statistics are kept of the issue of books and periodicals in these rooms, as the members are allowed in great measure to help themselves, it is evident that the character of this Library is rapidly chang-

ing for the better. While still retaining its pleasant club features, the Mercantile Library is becoming pre-eminently an institution for higher education and scholarly research. The change is partly due to the three-books rule and partly to the increase in our appropriations for books, all of which increase goes to purchase the comparatively expensive works required by students.

ATTENDANCE.

The attendance of members and visitors was as follows:

January	16,981
February	16,093
March	17,645
April	17,210
May	15,001
June	14,109
July	13,005
August	13,483
September	14,099
October	15,440
November	15,474
December	16,131
Total	184,671

This is a gain of 3,396 over the attendance of 1897.

CHANGES IN THE STAFF.

Early in the spring we engaged Miss May Simonds to take charge of an information desk in the issue room. As the librarian and issue clerks are frequently too busy to assist readers in looking up facts which may take from ten minutes to half an hour to discover, we had long felt the need of a reference assistant whose whole time could be given to such work. This addition was welcomed by our members, and the information desk is now one of the most popular features of the Library.

In August our assistant librarian, Charles D. Johnston,

resigned to accept the librarianship of the Cossitt Library of Memphis, Tennessee. Mr. Johnston had been employed by us from his boyhood, and by his tireless zeal and winning manner had won the esteem of every member of the association. In the sphere of wider usefulness to which he has been called, he has the best wishes of his old associates. He is the third full-fledged librarian who has graduated from our small staff in the past five years.

APPENDIX A.

LIST OF DONORS FOR THE YEAR 1898.

The following list enumerates only such gifts as did not duplicate volumes or pamphlets already on our shelves. It includes works received in exchange for our own publications, but not those received in exchange for duplicate books.

Periodicals, including library bulletins, etc., are acknowledged in Appendix B.

In the present list, a pamphlet received in paper covers but afterwards bound separately by the Library, counts as a volume. Similarly, a collection of pamphlets bound together counts as a single volume.

Parts of a work, received, but awaiting the completion of the volume, are not entered here.

When more than one copy of a work has been received, but one copy is entered in this list, unless it was deemed advisable to put more than one in circulation, in which case the number of copies entered in the accession-book is here credited to the donor.

APPENDIX F.

STATISTICS OF THE ST. LOUIS MERCANTILE LIBRARY, 1877-1898.

For many years it was customary to print in each Annual Report of the Library a “Table of Results,” giving statistics of membership, books, circulation, receipts, expenditures and property, from the opening of the Library in 1846 to date. The last of these tables was published in the Report for 1876, in which may be found the statistics of the first thirty years of the Library’s growth.

In the following pages, the same tabular statement is continued from 1877 to 1898, but in an expanded form:

FIFTY-FOURTH ANNUAL MEETING
OF THE
St. Louis Mercantile Library Association,
January 9, 1900.

ROOMS OF THE MERCANTILE LIBRARY ASSOCIATION, }
ST. LOUIS, January 9, 1900. }

The fifty-fourth annual meeting of the St. Louis Mercantile Library Association was called to order in the Reading Room at 8:00 o'clock P.M., by the President, Mr. H. N. Davis, who called Mr. A. C. Carr to the chair.

Messrs. W. G. Simmons and Robert Metcalf were appointed Secretaries.

The minutes of the last meeting were read and approved.

The Committee on Ways and Means submitted the following report, which, on motion, was received and adopted:

The Committee on Ways and Means respectfully reports that it has examined the books and accounts of the Association and finds the same correct, and that there are satisfactory vouchers for all expenditures during the year 1899.

ROBERT MCK. JONES,
Chairman.

Mr. H. N. Davis, President, submitted the report of the Board of Direction for the past year, which, on motion, was unanimously adopted.

Mr. Henry C. Scott, Treasurer, submitted his report, showing the receipts and disbursements during the year

ending December 31st, 1899. On motion, the report was received and adopted.

Mr. Horace Kephart, Librarian, submitted his report on the condition of the Library and the progress made during the past year. On motion, the report was received and adopted.

The following resolution was unanimously adopted:

Resolved. That the reports of the officers of the Association be accepted, and that we hereby tender our thanks to the President and his associates for their services during the past year.

On motion, it was ordered that the proceedings of this meeting be furnished the city papers for publication, and that two thousand copies of the same be printed in pamphlet form for distribution.

On motion, the meeting adjourned.

W. G. SIMMONS,
ROBERT METCALF,
Secretaries.

ALFRED C. CARR,
Chairman.

PRESIDENT'S REPORT.

ST. LOUIS, MO., January 9, 1900.

To the Members of the Mercantile Library Association:

The Board of Direction herewith submits its Annual Report for the year 1899:

Total.....	\$48,969.95
Cash on hand January 2, 1900.....	1,869.91
	<hr/>
	\$50,839.86

At the last annual meeting a new article was inserted in the By-laws, as follows:

ARTICLE X. *Membership Dues.*—The Membership Dues in this Association shall be as follows:

1. For all persons other than clerks \$5.00 annually, or \$2.50 for six months, payable in advance.
2. For clerks \$3.00 annually, or \$1.50 for six months, payable in advance.

Previous to this the annual members were divided into three classes: Beneficiaries, Proprietors, and Clerks. Of

these, the Proprietors were charged an initiation fee of \$5.00, and the Clerks \$2.00. At the last annual meeting the initiation fees were abolished, and the classes of Beneficiaries and Proprietors were merged in one.

The results from these changes have been very satisfactory; some of which are as follows:

Net increase in memberships, 22.

Receipts from memberships, \$315.50 more than in 1895.

Receipts from fines, extras, etc., have also increased.

We have paid \$10,000 on account of real estate loan, made final payment of \$4,500 on automatic sprinkler, have made somewhat extensive improvements in the reading room, repaired the alley, spent \$523.27 more for books, etc., than in the previous year, and still have a comfortable cash balance.

We have lost by death the following life members: Mrs. J. C. Cabanne, L. L. Culver, R. P. Hanenkamp, Samuel T. Jamison, George W. Parker and Lemuel W. Patterson.

Respectfully submitted.

H. N. DAVIS,
President.

Complimentary tickets for 30 days were issued to 40 visitors from out of town.

During the past year our Library has been visited by an unusual number of scholars from a distance to consult works that they could find nowhere else, and my correspondence with students abroad has grown to be almost a department in itself. The reference list of early newspapers that we published in 1898 has been reprinted verbatim by the Illinois Historical Society. I would suggest that similar lists of our treasure in other departments be issued during the coming year.

For the first time in the Library's history we have publicly announced that we would buy any suitable books (within reasonable limits) that any member recommended. This offer has been freely taken advantage of; it has been made good in nearly every instance.

APPENDIX A.

LIST OF DONORS FOR THE YEAR 1899.

The following list enumerates only such gifts as did not duplicate volumes or pamphlets already on our shelves. It includes works received in exchange for our own publications, but not those received in exchange for duplicate books.

Periodicals, including library bulletins, etc., are acknowledged in Appendix B.

In the present list, a pamphlet received in paper covers but afterwards bound separately by the Library, counts as a volume. Similarly, a collection of pamphlets bound together counts as a single volume.

Parts of a work, received, but awaiting the completion of the volume, are not entered here.

When more than one copy of a work has been received, but one copy is entered in this list, unless it was deemed advisable to put more than one in circulation, in which case the number of copies entered in the accession-book is here credited to the donor.

APPENDIX F.

STATISTICS OF THE ST. LOUIS MERCANTILE LIBRARY,
1877-1899.

For many years it was customary to print in each Annual Report of the Library a “Table of Results,” giving statistics of membership, books, circulation, receipts, expenditures and property, from the opening of the Library in 1846 to date. The last of these tables was published in the Report for 1876, in which may be found the statistics of the first thirty years of the Library’s growth.

In the following pages the same tabular statement is continued from 1877 to 1899, but in an expanded form :
